PREFATORY REMARKS,

This volume containing the Appropriation Accounts of the Government of Bengal for 1941-42 and the Audit Report is prepared in accordance with paragraph 13 (1) (i) and (iii) of the Government of India (Audit and Accounts) Order, 1936, and Section 169 of the Government of India Act, 1935. Its object is to present the audited accounts of all the expenditure of the year, whether voted or charged, in the form of a separate appropriation account for each grant, with any important observations which it is codsidered necessary to make as a result of audit investigation. The volume includes also the comments it is deemed necessary to make upon the results of audit of all trading, manufacturing and profit and loss accounts and balance sheets kept in respect of Government commercial or quasi-commercial concerns, and upon the examination of accounts of receipts and of stores and stock made under paragraph 13 (2) of Order in Council already mentioned. It also embodies the report of the Auditor of Indian Home Accounts relating to transactions in the United Kingdom affecting the revenues of the Government of Bengal submitted under sub-section (4) of Section 170 of the Government of India Act, 1935. It is submitted by the Auditor General of India to His Excellency the Governor to be laid before the Provincial Legislature.

2. In order that only agreed statements of fact and completed cases may be included in the report a convention has been established between the Auditor General and the Government of Bengal whereby cases relating to any previous years which have become ripe for inclusion since the writing of the last report are included in the report of the first convenient year.

3. The cases of financial irregularity, apparently defective administration, etc., which are brought to notice in the Report represent only a small percentage of the total financial transactions of the year. The comments on such cases must not be understood as conveying any general reflection on the administration of public expenditure.

PART I. AUDIT REPORT, 1943.

(Throughout this Report the amounts shown represent thousands of rupees unless the contrary is specifically indicated.)

GENERAL REVIEW OF THE RESULTS OF AUDIT.

REVIEW OF TOTAL DEMAND PLACED BEFORE THE LEGISLATURE.

Thirty-three demands for grants aggregating Rs. 13,57,45,700 were placed before the Provincial Legislature in March, 1941, which voted them without any reduction. This amount and another sum of Rs. 2,62,96,500 required to meet expenditure charged on the revenues of the Province were included in the schedule of authorsied expenditure which was authenticated by His Excellency the Governor of Bengal on the 31st March, 1941, under Section 80 of the Government of India Act, 1935. Expenditure relating to the Major Head 12-charges on account of Motor Vehicles Acts (Appropriation No. 7) which was voted in the year 1940-41 was classified as charged in the year under review under the provisions of the Bengal Revenues (Charged Expenditure) Act, 1940.

SUPPLEMENTARY GRANTS AND APPROPRIATIONS DURING THE YEAR.

2. During the year under report a supplementary schedule of authorised expenditure for an aggregate amount of Rs. 2,39,44,000 was authenticated by His Excellency the Governor on the 12th March, 1942. The schedule covered Rs. 2,36,69,000 on account of thirteen supplementary grants voted by the Legislature and Rs. 2,75,000 on account of six charged appropriations.

In the following two cases the supplementary grant or appropriation proved to be unnecessary as it helped only to increase the savings in the total grant or appropriation.

Number and name of grant or appropri		Amount of supple- mentary grant or appropriation.	Saving in the grant or appropriation as a whole.	
			Rs.	Rs.
16.—Police—Charged	•	•	35,000	59,993
27Industries-Cinchona-Voted .		•	68,000	1,22,163

The saving under the former was mainly due to smaller expenditure incurred in England by the High Commissioner. The supplementary appropriation was obtained mainly for meeting the cost of expansion of the civic guard organisation, some unforeseen passage expenses and some arrear charges payable to the Defence Department on account of Military Intelligence Officers in Bengal.

The saving under the latter was mainly due to smaller expenditure on works owing to difficulties in getting plans and estimates sanctioned and in obtaining licenses for steel as well as to the non-availability of factory stores. The supplementary grant was obtained for laying by a reserve of chemicals and packing materials against an apprehended shortage of such materials due to war conditions as well as for a rise in the price of materials and tools and plant.

GENERAL RESULTS OF APPROPRIATION AUDIT.

3. The following statement compares the total grants for the year under report with the total disbursements :---

36-Loans and Advances bearing interest.	72,33	99,17	1,71,50	1,57,30	14,20	8.3

4. Savings on voted grants.—Savings occurred in 30 out of 33 voted grants. A list of the more important instances is given below :—

The chief causes which contributed to the savings are detailed below :---

10-Irrigation.-Postponement and slow progress of works.

12—General Administration—General Administration.—Postponement of the general election to the Provincial Legislature, suspension of certain schemes of rural reconstruction, smaller expenditure on the service of notices of transfers under the Bengal Tenancy Act and lesser number of meetings of the Legislative Assembly held during the year.

13—General Administration—Debt Conciliation.—Vacancies in the posts of Special Officers, printing of forms by the Press and Forms Department instead of in local presses and curtailment of contingent expenditure.

19—Charges on account of Education.--Postponement of the construction of a building for the Dacca University, curtailment of grants to local bodies for primary education and reduction in the number of training centres for primary school teachers owing to administrative difficulties.

22—Public Health.—Non-utilisation in full of the provision for rural water supply grants owing to a change in the system of distribution of the grants, non-commencement of certain schemes and certain other schemes not having matured during the year.

23—Charges on account of Agriculture.—Less expenditure on the scheme for substitute crops in jute-restricted areas owing to lesser demands from the cultivators for seeds and partial utilisation of the supplementary grant^{*} for expenditure on the scheme for regulation and licensing of jute under the Jute Regulation Act, 1940, owing to late decision on the question of fixation of jute quota.

25—Charges on account of Co-operative Credit.—Non-appointment of certain temporary staff owing to their training not having been completed within the year, non-entertainment of staff for five new land mortgage banks and lesser number of Secretaries of rural societies having attended their training.

26—Industries—Industries.—Postponement of the scheme for the marketing of cottage industry products owing to abnormal rise in the price of yarns and delay in the recruitment of a Director for the Fisherics Department.

27—Industries—Cinchona.--Non-commencement of certain works in connection with the reorganisation scheme of the Department owing to difficulties in getting plans and estimates sanctioned and in obtaining licenses for steel.

29-Civil Works.-Postponement, slow progress and late commencement of works.

30 -Famine.-Unexpected improvement in the economic condition of the people.

³ 32—Stationery and Printing.—Rise in the price of paper not coming up to expectations, less supply of stationery articles due to heavy demands of the Military Department and to restriction of transport facilities and adjustment of the charges for printing work done for the A. R. P. Controller under "34—Extraordinary Charges".

34—Extraordinary Charges.—Expenditure on Air Raid Precaution measures did not come up to expectations.

36—Loans and Advances bearing Interest.—Non-utilisation in full of the provision for crop loans distributed through the Bengal Provincial Co-operative Bank owing to non-fulfilment of the conditions of the loans and to late receipt of applications.

5. Savings on charged appropriations.—Savings also occurred in 28 out of 31 charged appropriations. The more important of these are detailed below :—

Number and name of appropriation.	Original appro- priation.	Supple- mentary appro- priation.	Final appro- priation.	Expendi- ture.	Savings.	Percent- age of gavings.
1	2	3	4	5	6	7
2—Land Revenue . 8—Other Taxes and Duties.	1,73 27	 42	1,73 69	1,49 57	24 12	13·9 17
10-Irrigation	3,00	••	3,00	2,61	39	12.8
15-Jails and Convict Settlements.	1,07	••	1,07	67	4 0	37· 7
21—Medical	6,27	••	6,27	8,75	2,52	40.2
22-Public Health .	1,23	••	1,23	1,01	22	17.7
25—Charges on account of Co-operative Credit.	46	••	46	25	21	44-9
83-Miscellaneous .	57,67	••	57,67	51,26	6,41	41.1

The following are the main reasons which brought about the savings under each of the above appropriations :---

2—Land Revenue.—Entertainment of a voted officer instead of a charged officer for whom provision was made.

8-Other Taxes and Duties.-Vacancies on account of leave and transfer.

10—Irrigation.—Deputation of one officer to Military duty and dismissal of another.

15-Jails and Convict Settlements.-Recall of I. M. S. Officers to Military duty.

21-Medical.-Reversion of I. M. S. Officers to Military duty.

22—Public Health.—Reversion of I. M. S. Officer to Military duty and vacancies.

25—Charges on account of Co-operative Credit.—The post of the Deputy Registrar proposed to be filled up by an I. C. S. Officer remained unfilled.

33—Miscellaneous.—Smaller payment of contributions to local bodies on account of a fall in the receipts under the Government of India (Adaptation of Indian Laws) Order, 1937, owing to economic depression, reduction in the number of cases instituted due to general economic distress and adjournment of a large number of cases following a large scale exodus of the civil population on account of the war scare.

6. Savings on voted grants and charged appropriations (separately and combined) as compared with previous years.—The statement furnished below shows how savings in grants and appropriations in the year under report compared with those in the previous years :—

	_	-				1	nal appro- priations nd grants.	Savings.	Percentage of savings.
	1						2	3	4
Charged—									
1937-38	•	•	•	• •	•	•	1,77,78	5,81	3.3
1938-39	•			•	•	•	2,11,78	3,50	1.2
1939-40	•	•	•	•	•	•	2,00,76	11,70	5.8
1940-41	•	•	•	•	•	•	1,97,45	11,52	5.8
1941-42	•		•	•	•	•	2,65,71	13,90	5.2
Voted									
1937-38	•	•	•	•	•	•	11,14,34	67,89	6.1
1938-39	•	•	•	•	•	•	12,34,65	83,10	6.7
1939-40	•	•	•	•	••	•	13,82,58	1,22,15	8.8
1940-41	•		•		•	•	14,50,98	87,24	6.0
1941-42	•	•	•	•	•	•	15,94,15	1,18,49) 7·4
Charged and V	/oted								
1937-38	•	••	•	•	•	•	12,92,12	73,70	5.7
1938-39	•	•	•	•	•	•	14,46,43	86,60	6,0
1939-40					•	•	15,83,34	1,33,85	8.2
1940-41	•					•	16,48,43	98,76	6.0
1941-42	•	•	•	•	•	•	18,59,86	1,32,39	7.1

As compared with the previous year there has been a slight decrease in the percentage of savings in the charged section, while there has been a definite increase in the voted section. The bulk of the savings in the voted section occurred under Grants Nos. 19, 22, 29, 30, 34 and 36 for the reasons stated in paragraph 4 ante.

7. Excesses over voted grants.—Expenditure was incurred in excess of the voted grant in the following three cases. These excesses require regularisation by the Legislature.

Number and name of grant.	Original grant.	Supple- mentary grant.	Final grant.	Expenditure.	Excess.	Percentage of excess.	
1	2	3	4	5.	6	7	
	Rs.	Rs.	Rs.	Rs.	Rs.		
5-Forest	14,57,000	••	14,57,000	16,40,350	1,83,350	12.6	
17-Ports and Pilo- tage	4,08,000		4,08,000	4,3 0,212	22,212	5.4	
35Interest Free Advances	4,52,000		4,52,000	7,87,043	3,35,043	74.1	

The excess under Forest was mainly due to larger removals of departmental timber to meet unforeseen demands of the Supply Department of the Government of India as well as to recoveries from that department'falling short of expectations on account of certain supplies not being completed during the year owing to difficulties in transport.

The excess under Ports and Pilotage was due to thorough overhauling and extensive repairs to a steam launch after her salvage, rise in the price of stores and larger expenditure on coal and oil fuel owing to extensive use of a large number of pooled launches in some districts for relief operations following the cyclone in May, 1941.

The excess under Interest-free Advances was main'y due to the payment of emergent advances to Government servants for the removal of their families to safer zones during the closing months of the year for which a supplementary grant could not be obtained.

8. Excesses over charged appropriations.—Charged appropriations were exceeded in the following two cases. These excesses require regularisation by His Excellency the Governor.

Number and name of appropriation.	Original appropria- tion.	Supple- mentary appropria- tion.	Final appropria- tion.	Expendi- ture.	Ехсевя.	Percentage of excess.
1	2	3	4	5	6	7
	Rs.	Rs.	Rs.	· Rs.	Rs.	
31—Superannuation Allowances and	•					
Pensions, etc	35,37,000	92,000	36.29,000	37.02.767	73,767	2
34-Extraordinary Charges		50,000	50.000	90,722	40,722	? \$1·4

The excess under Superannuation Allowances and Pensions was mainly due to a larger number of cases of obligatory commutation of pensions which could not be anticipated.

The excess under Extraordinary Charges was mainly due to non-settlement before the close of the year of the basis of allocation of the recoveries from the Central Government between 'Charged ' and ' Voted '.

9. Excesses over voted grants and charged appropriations as compared with previous years.—The table below compares the number and amount of excesses over voted grants and charged appropriations during the year under review with those of the four preceding years.

	Year.						Nur	nber.	Amount.	
		Te	tr.				Voted.	Charged.	Voted.	Charged.
		1					2	3	4	5
									Rs.	Rs.
1937-38	•	•	•	•	•		3	4	87,017	14,959
1938-39			•	•	•	•	2	Nil	1,36,491	Nil
1939-40	•	•	•	•	•	•	1	2	1,862	13,409
1940-41	•	•	•	•	•	•	2	3	47,735	1,858
1941-42					•	•	3	2	5,40,605	1,14,489

As compared with the four preceding years the excesses are large in amount both in the charged and voted sections. There was, however, a slight decrease in the number in the charged section compared with the previous year. The excesses, as already stated, were mostly due to the abnormal situation brought about by the war.

GENERAL COMMENTS ON THE ACCURACY OF BUDGETING.

10. Voted grants.—The budget estimate for 1941-42 provided a total sum of Rs. 13,57.46 lakhs for voted expenditure against which the actual expenditure was Rs. 14,75.66 lakhs causing an excess of Rs. 1,18.20 lakhs, *i.e.*, 8.7 per cent. of the original grant. Supplementary grants for an aggregate sum of Rs. 2,36.69 lakhs converted the excess to a saving of Rs. 1,18.49 lakhs which was 7.4 per cent. of the final grant. The excess of Rs. 1,18.20 lakhs in the original grant was composed of an excess of Rs. 2,05.71 lakhs under thirteen heads and a saving of Rs. 87.51 lakhs under twenty heads. The final saving of Rs. 1,18.49 lakhs consisted of a saving of Rs. 1,23.89 lakhs under thirty heads and an excess of Rs. 5.40 lakhs under three heads. It will thus be seen that the supplementary grant covered all the excesses except three. In one case, however, the supplementary grant actually increased the saving in the original grant, *vide* paragraph 2 *ante*.

Grants Nos. 10—Irrigation, 12—General Administration—General Administration, 19—Charges on account of Education, 22—Public Health, 23—Charges on account of Agriculture, 26—Industries—Industries, 29—Civil Works, 30—Famine, 34—Extraordinary Charges and 36—Loans and Advances bearing Interest together contributed over 88 per cent. of the total saving in the final grant. The largest amount of saving, accounting for 26 per cent. of the total saving, occurred under Civil Works (Rs.30.90 lakhs), other bigger savings being under Loans and Advances (Rs. 14.20 lakhs), Education (Rs. 12.88 lakhs) and Public Health (Rs. 12.24 lakhs) which contributed about 12, 11 and 10 per cent. respectively of the aggregate saving in the final grant. The reasons for the more important savings have been explained in paragraph 4 ante.

Charged appropriations.—The total charged expenditure for 1941-42 was Rs. 2,51.81 lakhs against the budget estimate of Rs. 2,62.96 lakhs leading to a saving of Rs. 11.15 lakhs, which was 4.2 per cent. of the original appropriation. Supplementary appropriations of Rs. 2.75 lakhs increased the saving to Rs. 13.90 lakhs which was 5.2 per cent. of the final appropriation. The saving of Rs. 11.15 lakhs in the original appropriation was composed of a saving of Rs. 14.39 lakhs under twenty-five heads and an excess of Rs. 3.24 lakhs under five heads. The excesses were covered by supplementary appropriations fully under three heads and partially under two. In one case, however, the supplementary appropriation increased the saving in the original grant, vide paragraph 2 ante. The final saving of Rs. 13.90 lakhs consisted of a saving of Rs. 15.05 lakhs under twentyeight heads and an excess of Rs. 1.15 lakhs under two heads. The largest amount of saving occurred under Miscellaneous (Rs. 6.41 lakhs) which alone contributed 46 per cent. of the total saving in the final appropriation. The reasons for the more important savings have been explained in pragraph 5 ante.

Out of 35 heads for which appropriation accounts have been prepared, there was no variation in one case, three showed variations of less than 1 per cent., ten between 1 and 5 per cent. and thirteen between 5 and 10 per cent. In the remaining eight cases the variations were above 10 per cent. The reasons for the more important variations have been explained in paragraphs 4, 5, 7 and 8.

CONTROL OVER EXPENDITURE.

11. A few important instances of defective control over expenditure noticed during the year under report are mentioned below :---

(a) Reappropriations obtained unnecessarily or in excess of requirements-

Grant No. 14-Sub-head D-3-Voted, page 81.

Grant No. 34—Sub-head A-2(5), page 239.

(b) Allotments made too late in the year to be wholly or partially utilised within the year—

Grant No. 10-Sub-head D-13, page 49 and paragraph 4 of the review, page 53.

Grant No. 12-sub-head F, page 75.

Grant No. 22-Sub-head B-1, page 144.

(c) Injudicious reappropriations and surrenders causing excess over allotments—

Grant No. 2-Sub-head B-2, page 22 and paragraph 3 of the review on page 27 (d) Cases of non-surrender of savings-

- Grant No. 8-Sub-head A-4-Charged, page 42.
- Grant No. 12—Sub-head E-1(8)—page 74 and paragraphs 3 and 4 of the review, page 78.
- Grant No. 23-Sub-head I, page 154 and paragraph 3 of the review, page 157.
- Grant No. 24—Sub-head A—Voted, page 160 and paragraph 2 of the review, page 162
- Grant No. 29-Sub-head A-4-Voted, page 182 and item 5 of Annexure A, page 193.

(e) Cases of unremedied or uncovered excesses-

- Grant No. 2—Sub-heads A-5 and B-2, page 22 and paragraphs 2 and 3 of the review, page 27.
- Grant No. 4-Sub-head A-2, page 32 and paragraph 2 of the review.
- Grant No. 16-Sub-head A-4, page 96.
- Grant No. 29-Item 72 of Annexure A, page 205.
- Grant No. 33—Sub-head J—Charged, page 233 and paragraph 3 of the review, page 234.
- Grant 'No. 34-Sub-heads A-1(b) (i) (5) and A-1 (b) (iii), pages 236 and 237.

GENERAL CONCLUSIONS RELATING TO CONTROL OVER EXPENDITURE.

12. Out of the saving of Rs. 1,18.49 lakhs in the total voted grant for 1941-42 (vide paragraph 10 ante) an aggregate amount of Rs. 85.66 lakhs was surrendered to the Finance Department by the various controlling officers leaving an unadjusted balance of Rs. 32.83 lakhs. This works up to 2.2 per cent. of the final modified appropriation.

Savings in the charged appropriations for 1941-42 amounted to Rs. 13.90 lakhs (vide paragraph 10 ante), out of which a sum of Rs. 11.53 lakhs was surrendered to the Finance Department by the controlling officers. The unadjusted saving of Rs. 2.37 lakhs is .9 per cent. of the final modified appropriation.

The following table compares the percentages of the unadjusted savings in the final modified appropriation for the year under review with those of the preceding four years :—

(In	Rs.	lakhs.)

It would appear from the above table that the improvement noticed in the previous year was not maintained in the year under review in respect of the voted expenditure, the position in respect of the charged expenditure remaining the same.

Cases of defective control over expenditure have been noticed in the notes and in the reviews on the appropriation accounts concerned and in paragraph 11 ante. They show that there is room for improvement in control under some grants and sub-heads. But these cases represent a small percentage of the total financial transactions of the year under report. The results of the year, as a whole, do not indicate any substantial deterioration in the standard of control except with regard to A. R. P. expenditure much of which, however, was difficult to foresee.

FINANCIAL IRREGULARITIES, LOSSES, ETC.

13. Fifteen cases of defalcation and loss of Government money which deserve to be brought to notice have been mentioned in the reviews of Grants Nos. 2, 4, 5, 8, 10, 16, 21, 23, 24 and 29 in Part II.

OTHER TOPICS OF INTEREST.

14. Local Audit and Inspections.—During the year under review the Outside Audit Department of the office of the Accountant General, Bengal, conducted the local test-audit of the accounts of nine treasuries, seventeen Public Works Divisions, eleven Irrigation Divisions and one hundred and twelve other offices.

The local test-audit included the audit of receipts of all the Public Works and Irrigation Divisions which were taken up for inspection and of one hundred and nine offices of the Civil Department. The store accounts of fourteen Public Works and six Irrigation Divisions and eleven other offices and the stock accounts of forty-two offices of the Civil Department were also locally test-audited.

The accounts of one sub-jail, in which defalcation of public money was suspected, were subjected to a special audit at the instance of Government. Special audits of the accounts of an aided educational institution and an office under the Civil Veterinary Department were also undertaken at the request of Government. The results of these audits have been reported to Government. The audit of the last mentioned accounts revealed a defalcation of Government money to the extent of Rs. 2,041. The defalcation was due to the non-observance of the financial rules of Government and to the lack of supervision on the part of the head of the office. The general state of the initial accounts maintained by the Public Works and Irrigation Divisions was found during local inspections to be, on the whole, satisfactory. The more important types of irregularities noticed in some of the divisions during these inspections are detailed below :--

- (1) Irregular record of measurements.
- (2) Open tenders not invited.
- (3) Acceptance of tenders other than the lowest in contravention of Government orders.
- (4) Standard measurement books not properly maintained.

The initial accounts of civil offices were generally found satisfactory. Important types of irregularities noticed in some of them related to the

- (1) acceptance of tenders other than the lowest without adequate reasons,
- (2) failure to verify stocks at regular intervals,
- (3) delay in crediting receipts into the Cash Book and in their remittance to the treasury,
- (4) delay in the issue of certificates in certificate cases leading to short realisation of interest,
- (5) withdrawal of moneys from treasuries at the close of the year with a view to avoid lapse of grant.

15. Audit of grants-in-aid.—The Examiner, Local Audit Department, who conducted a detailed audit of grants-in-aid paid to local bodies has certified that the grants paid during 1940-41 were utilised properly and in accordance with the prescribed conditions.

In respect of one scheme there was an unspent balance of Rs. 3,355 of which Rs. 2,821 was refunded in 1940-41, Rs. 463 in 1941-42 and Rs. 71 in 1942-43.

In the case of grants-in-aid paid to other institutions, the requisite certificates have been received from the departmental authorities.

16. Expenditure on Civil Defence.—The expenditure incurred in this Province during the year 1941-42 in connection with Civil Defence was in respect of the following items, namely,

- (i) Establishment of Civic Guards to supplement the regular Police forces.
- (ii) Establishment of war-time additional Police in connection with the control of foreigners, protection of vulnerable places and preservation of internal security.
- (iii) Motor Spirit Rationing Scheme introduced as a war emergency measure to control the consumption of Motor Spirit.
- (iv) Press Censor Scheme for advising the Press on matters affecting their interests and preventing the publication of information prejudicial to national security.

- (e) Extra staff for the Défence Branch of the Home Department and for the office of the Commissioner of Police, Calcutta.
- (vi) Propaganda Units of the Publicity Department sanctioned for the expansion of propaganda with a view to keep public opinion healthy.
- (vii) Air Raid Precautions Scheme.

The expenditure on item (i) is apportioned between the Central and the Provincial Governments in the proportion of 1:2, as some of the duties performed by the Civic Guards are the concern of the Central Government. The total expenditure incurred on this item during the year was Rs. 2'85 lakhs, out of which a sum of Rs. 51 thousand was re-imbursed by the Central Government on the basis of expenditure incurred during the calender year. Under item (ii) the total expenditure was Rs. 8.52 lakes out of which Rs. 2.07 lakhs which were accepted as a proper charge against Central Revenues were recovered from the Central Government. Under items (iii), (iv) and (v), the expenditure amounted to Rs. 66 thousand, 38 thousand and 24 thousand respectively which was charged initially in the Provincial accounts, although the whole of it was ultimately recoverable from the Central Government. Out of this expenditure sums of Rs. 32 thousand, 36 thousand and 19 thousand were actually recovered from the Central Government during the year on the basis of expenditure incurred during the calender year 1941. The expenditure under item (vi) amounted to Rs. 24 thousand and was met wholly from Provincial revenues, pending recovery of a portion (namely about 7 thousand) from the Central Government in the next year.

The expenditure on item (i) was booked under the major head, "29—Police", that on items (ii), (iii), (iv) and (v) under the major head "63—Extraordinary charges" and that on (vi) under "25—General Administration." The recoveries effected from the Central Government were adjusted by deduct entries under these heads.

Advances aggregating Rs. 87.06 lakhs were taken by the Provincial Government from the Central Government to finance the Civil Dofence expenditure in this Province during the year. Of this amount Rs 43 lakhs were repaid by the Provincial Government before the close of the year and the balance was converted into an interest-free loan to be repaid by the Provincial Government in 5 equal annual instalments.

In respect of item (vii) a financial arrangement was made during 1941-42 whereby the Central Government agreed to re-imburse all non-recurring expenditure it had sanctioned before the 1st July 1941 and all recurring expenditure sanctioned and incurred before that date. As regards expenditure sanctioned after the 30th June 1941, the Central Government agreed that certain classes of expenditure, whether recurring or non-recurring, were to be pooled between the Central and the Provincial Governments. Under this arrangement the first slab of expenditure to be borne entirely by the Provincial Government was originally fixed at Rs. 50 lakhs, the second slab of Rs. 50 lakhs was intended to be shared equally between the two Governments, the third slab of similar amount to be shared in the proportion of 75: 25 and any expenditure beyond that in the proportion of 871: 121. As a result of representations made by the Government of Bengal the initial slab of expenditure to be borne by that Government in the year 1941-42 was, however, fixed at Rs. 25 lakhs, as a special case, and the whole of the expenditure incurred during the year including pre-July (1941) expenditure was included in the pool. The Provincial Government submits early each month a list of all the new schemes it has initiated in the preceding month for the approval of the Central Government and to the extent that a scheme is included in the list of poolable items, the Provincial Government has full discretion to incur expenditure on that scheme. The Central Government does not, however, meet any part of the expenditure on A. R. P. in respect of services owned and exclusively utilised by the Provincial Government or a local body for the needs of its employees or for its structural works, etc.

In respect of the schemes initiated by the Calcutta Corporation a special arrangement was made by the Bengal Government under which the latter advanced the total cost and the question of the amount to be paid by the Corporation was left for settlement at some future date. In respect of these schemes the Central Government have agreed to contribute one-third of the total cost and no share of any subsequent recoveries will come to the Centre. The whole expenditure on this account is kept outside the pool.

With regard to expenditure in other municipalities and local areas the Provincial Government will determine the proportion to be borne by the local body concerned and the remaining expenditure will be treated as poolable Civil Defence expenditure.

All "approved" items of expenditure on A. R. P. are booked initially in the Provincial Section of the accounts under "63—Extraordinary Charges—Charges in India—Expenditure on A. R. P." Any expenditure that is incurred by the Central Government on behalf of the Province for supplies made or services rendered is also passed on to the Province for adjustment in the Provincial accounts under the major head named above. At the close of the year the Central Government's share of the expenditure is transferred to the Central Section of the accounts by a doduct entry in the Provincial Section of the accounts under the service head concerned. The expenditure incurred during the year in this Province under the above major head including that on Corporation schemes was Rs. 1,07 lakhs, out of which Rs. 43 lakhs were transferred to the Central Government.

An account of all equipment supplied and its disposal is required to be kept by the officers concerned and is subject to audit. The local audit conducted revealed that the stock account of equipments was not maintained according to the procedure and in the forms prescribed by the Central Government, that there were practically no records for transactions prior to August 1941 and that the opening entries of receipts and issues shown in the stock books which were opened subsequently could not be verified properly. Suggestions to improve the existing procedure of accounting have been made and special rules for the maintenance of stock accounts of A. R. P. stores, etc., are under issue by the Provincial Government. 17. Termination of an agreement on breach of the conditions of a recurring grant-in-aid.—In paragraph 19 of the last Audit Report on the Appropriation Accounts mention was made of a provisional payment of Rs. 12,400 to a Credit Syndicate towards its administration expenses for the period from the 1st April 1939 to the 3rd January 1940, the date of termination of its agreement with Government. The accounts of the Syndicate as certified by their auditors were carefully scrutinised and a further sum of Rs. 718 which was found due to it on account of administration expenses was paid to the Syndicate in November 1942 in full satisfaction of all its claims which were much larger than the amount paid as stated above.

Whether Government has any further liabilities under the other clauses of the agreement originally entered into with the Syndicate is still being investigated.

18. Secret Service Expenditure.—The accounts of expenditure treated under orders of the Government of Bengal as on secret service are not subjected to scrutiny by audit authorities. Administrative Officers furnish periodical certificates of disbursements to the audit office in a prescribed form. The expenditure incurred on this account during the year under report amounted to Rs. 2,11,190 which was met from Grants Nos. 3— Provincial Excise, 12—General Administration—General Administration and 16—Police. All the certificates of disbursements in respect of the expenditure, as required by the rules, were duly received.

CALCUTTA ; The 3rd April, 1943. H. BOSE

Accountant General, Bengal.

Countersigned.

SIMLA ; The 12th April, 1943. A. C. BADENOCH,

Auditor General of India.

PART II.

Appropriation Accounts of sums expended in the year ended 31st March 1942, compared with the several sums specified in the schedules of authorised expenditure authenticated under Section 80 of the Government of India Act, 1935.

NOTE 1.-(a) Charged items in the Accounts are shown in italics.

(b) In the Accounts-

'O' stands for the original grant or appropriation.

'S' stands for the supplementary grant or appropriation.

'R' stands for such residual modifications in the grant or appropriation as may be sanctioned by a competent authority (*i. e.*, reappropriations, withdrawal or surrender).

(c) The figures shown in the second column of the accounts against all sub-heads are the figures as they stand after all modifications including withdrawals or surrenders. But the figures shown in the same column against "Totals" represent merely the totals of the original and supplementary grants or appropriations, unaffected by withdrawals or surrenders. In order to neutralise the effect of reductions made in the charged or voted provision under different sub-heads on account of withdrawals or surrenders a sub-head "Surrenders or withdrawals within grant or appropriation" is opened where necessary as the last sub-head in the accounts. To distinguish this sub-head from oridinary sub-heads, no letter is prefixed to it.

NOTE 2.—(a) Expenditure in England is provided for in the respective subject demands.

(b) The detailed Appropriation Accounts of expenditure incurred by the Secretary of State have been furnished by the Account General, India Office; those of expenditure incurred by the High Commissioner by his Chief Accounting Officer. They have been included in the individual Appropriation Accounts of the Crants concerned.

(c) Expenditure incurred in England was converted into Indian Currency at the flat rate of exchange, viz., Rs. 13-5-4 to the pound at which rate also the estimates were framed. The figures shown against "Loss or gain by exchange" represent the difference between the average market rate of exchange and the flat rate.

(d) The original grants for "Leave and Deputation Salaries, etc." were based on leave programmes furnished to the High Commissioner in the preceding year by the several departments and administrations of the Government, those for "Sterling Overseas Pay" mainly on figures proposed by the High Commissioner on the basis of the average expenditure in past years with due allowance for the leave programme.

NOTE 3.-The main object of the note under a sub-head is to explain divergencies :----

- between the grant or appropriation for the sub-head as originally voted or sanctioned and its final figure as modified by supplementary provisions, surrenders and reappropriations, *i.e.*, to explain additions or modifications shown in column 1;
- (2) between the final figure in column 2 and the actual expenditure in column 3, the difference between which appears in column 4.

In the case of (1) no explanation is generally given (a) if the modification is less than Rs. 1,000 and (b) if it is for Rs. 1,000 or more, but is less than 15 per cent. of the original provision.

In the case of (2) explanations are not ordinarily given when the saving or excess is less than Rs. 2,000 or 10 per cent. of the final grant or appropriation whichever is greater.

Irrespective of the above limits, explanations have, however, been given on any marked failures to adjust excesses or surrender savings.

No. 1. Page 15.—Substitute the following for Note 2 (d) :--

"Budget Estimates were proposed by the High Commissioner, in the first instance, in October and December, 1940, on the basis of such information as was then available in his office, including leave programmes furnished by the several Departments and Administrations of the Government. These estimates were, however, subsequently substantially modified by Government, and in the absence of the details of the provisions eventually fixed for the purpose of the Budget it has not been possible generally to furnish precise explanations of variations between original and final grants or appropriations."

The account above has been examined under my direction in accordance with the provisions of the Government of India (Audit and Accounts) Order, 1936. Likewise, as prescribed by Section 170 of the Government of India Act, 1935, the accounts of transactions of the Government in the United Kingdom have been audited by the Auditor of Indian Home Accounts under my general superintendence. I am assured that my officers have obtained all the information and explanations that they have required and according to the best of my information and on the basis of the certificate I have obtained from the Auditor of Indian Home Accounts I certify that the account above is correct subject to the observations in the report.

REVIEW.

Charged savings were 13.9 per cent. of the authenticated appropriation as compared with 21.3 per cent. in the previous year. The savings were chiefly contributed by sub-heads C and D-1. There was an excess of 1.1 per cent. in the final appropriation as against 1.6 per cent. in the year 1940-41. In the voted section there were savings of 2.6 and .2 per cent. in the original and the final grants respectively as against 2.6 and 2.2 per cent. in the previous year.

2. In September, 1941, orders were issued by Government that the proportionate cost of the Certificate, Munshikhana and Record-room establishments employed on education cess work should be adjusted under the sub-head A-5. No arrangements for funds to cover the expenditure booked under the sub-head were made although the controlling officer was aware of the bulk of the requirements of the year, the estimates of all the local officers except three having been received by the end of February, 1942. It was explained by the controlling officer that the remaining estimates of the local officers were being awaited. This indicates that there was a lack of proper control.

3. A supplementary grant of Rs. 10,000 was obtained under the sub-head B-2, as an increase in expenditure was anticipated by the controlling officer under the detailed head "Temporary Establishment". As, however, the anticipation did not materialise, the supplementary grant was reappropriated to the sub-head B-4, although there were excesses under other detailed heads subordinate to the sub-head B-2 which remained unregularised. This indicates defective control.

4. Notes to the value of Rs. 11,903 were damaged by white-ants in a Khasmahal Office, owing to their having been kept in a condemned iron chest, when a new chest was in its possession. Out of the damaged notes, notes to an aggregate value of Rs. 11,018 could be redeemed from the Imperial Bank of India, the Currency Officer, Calcutta, and the Currency Officer, Rangoon. The rest of the notes valued at Rs. 885 were mutilated beyond redemption and constituted a loss to Government which was written off by the competent authority.

5. A sum of Rs. 1,129 representing Khasmahal rent was at first reported by a Tahsildar to have been stolen from the iron safe inside the Kutchery of a district on the night of the 30th January, 1941, but the police on subsequent investigation found the Tahsildar's report of theft to be false and charged him with defalcation of the Government money. The Tahsildar was prosecuted criminally and sentenced to rigorous imprisonment for six months and to a fine of Rs. 500 or, in default, rigorous imprisonment for another six months. On appeal he was, however, acquitted by the Appellate Court. Departmental proceedings were then drawn up against him in which he was found guilty of various offences including culpable negligence of duty, non-observance of rules and falsification of Government records and was accordingly dismissed from Government service.

17-1-213

REVIEW-concld,

Against the above mentioned loss of Rs. 1,129, Rs. 400 has been realised from the Tahsildar's security deposit and the balance (viz., Rs. 729) is proposed to be recovered by attaching his immovable properties or from his sureties.

Necessary remedial measures have also been taken by the Collector to prevent the recurrence of such frauds in future.

6. On the 13th April, 1941, a Sub-Tahsildar of a Khasmahal Office got his cash balance amounting to Rs. 6,528 counted and sealed in bags by his peon for remittance into a Sub-treasury, the sealing having (as reported by the Sub-Tahsildar) been done in a room away from his presence.

On the 4th May, 1941, when the money was about to be paid into the Sub-treasury by the Sub-Tahsildar, a sum of Rs. 1,981 was found short in the bags. The peon who was reported to have sealed the bags but who did not accompany the Sub-Tahsildar to the Sub-treasury fell ill in his house in the meantime and eventually died on the 4th May, 1941. On a departmental enquiry the Sub-Tahsildar was dismissed.

A sum of Rs. 500 was realised by forfeiting the Sub-Tahsildar's security deposit and a further sum of Rs. 258 was realised by withholding his dues on account of pay, travelling allowance, etc.

Regarding the recovery or write-off of the balance, wiz., Rs. 1,223 orders of the competent authority are awaited.

7. A loss of Rs. 2,554 being the book value of certain articles burnt by fire which broke out in a settlement camp in April, 1941, was written off by Government. The cause of the fire could not be ascertained.

8. A sum of Rs. 1,098 being the book value of certain articles in the stock of a Settlement Office which were lost in the cyclone of the 25th May, 1941, was written off by Government.

REVIEW.

Savings were 5 per cent. of the original grant as compared with 2.1 per cent. in the previous year.

2. An excess of 12.2 per cent. over the final grant occurred under subhead A.-2. This was due to the controlling authority not having based his estimate for the last three months on the trend of actuals. There was scope for better control under this head.

REVIEW—concld.

3. In June, 1941, it was detected that stamp vendors in two Stamp Depôts were being allowed discount on non-judicial stamps at a higher rate than what was admissible in terms of rules contained in the Stamp Manual. The mistake had been going on for about twelve years. The total ascertainable loss amounted to Rs. 1,277. The loss was due primarily to the failure on the part of the officers in charge of the Stamp Depôts as well as the inspecting officers of the department to detect the incorrect rate that was being allowed. Against Rs. 1,277 overpaid to the vendors, a total sum of Rs. 137 was realised from them. The orders of Government regarding the recovery or write-off of the balance of Rs. 1,140 are awaited.

REVIEW.

Charged savings were 5.9 per cent. of the original appropriation as against 7.3 per cent. in the previous year. In the final appropriation there was an excess of 1.4 per cent. The excess in the voted grant was 12.6 per cent. and occurred mainly under the sub-head A-VIII.

2. A loss amounting to Rs. 2,800 caused by the death of two elephants of a Forest Division was written-off by competent authorities. The death was not due to any negligence on the part of any forest official.

3. The accounts of the Siliguri Band Saw Mill Sub-division and the Manager's financial review will be found in the Appendix on page 250.

REVIEW.

Charged savings were 16.3 per cent. of the original appropriation as against 19.7 per cent. in the previous year. Voted savings were 4 per cent. of the original grant as compared with 5 per cent. in the preceding year and occurred mainly under the sub-head B-5. Voted savings in the final grant, however, came up to 1 per cent. only.

2. The service of notices under Section 26 (c) of the Bengal Tenancy Act which had hitherto been effected by Sub-Registrars was taken over by the Collectors with effect from 1941-42. The provision for the purpose was accordingly made under "Grant No. 12.—General Administration—Landlords' fee Establishment" instead of under sub-head B-5 of this grant.

REVIEW.

Charged savings were 12.8 per cent. of the original appropriation compared with 21.1 per cent. in the preceding year. The savings in the finally modified appropriation were, however, 3.8 per cent. as against an excess of 10.1 per cent. in 1940-41.

Voted savings were 15.2 per cent. of the original grant and 7.5 per cent. of the finally modified appropriation compared with 13.2 and 4 per cent. respectively in the preceding year.

2. Establishment and tools and plant charges of the Irrigation Department.-The charges for general establishment, ordinary tools and plant, expenditure in England and loss or gain by exchange were initially booked in the accounts for 1941-42 under the Major head "18,-Other Revenue Expenditure financed from Ordinary Revenues" and distributed after the close of the year to the different irrigation projects under the major heads "XVII.--Irrigation, etc.-Working expenses", "18.-Other Revenue expenditure, etc." and "68.-Construction of Irrigation, etc., works" in proportion to the outlay on works under those heads. This allocation is technically called pro rata distribution. No provision for these charges is, however, made in the budget separately under the different major heads as the expenditure varies in proportion to the works outlay under the system of pro rata distribution and consequently no effective control is possible. On the recommendations of the Public Accounts Committee it was, therefore, decided by Government that the provision for these charges should not be distributed throughout the budget but exhibited separately as sub-heads. The provision for the charges in the budget was accordingly made as follows :---

		Ch	arge	8.					Major hea	id and i	sub head.
General Establishment		•	•	•	•	•	•	•		Revenu ure, etc head l

REVIEW-contd.

3. The gross establishment charges of the Irrigation Department during the year 1941-42, excluding those incurred on special establishments entertained for the Damodar-Hooghly Flush Irrigation Scheme, collection of revenue, etc., amounted to Rs. 10.80 lakhs, i.e., 69.27 per cent. of the total works outlay of Rs. 15.59 lakhs against 76.56 per cent. of the previous year. An aggregate amount of Rs. 08 lakh was recovered during the year on account of establishment charges for works done on behalf of private bodies, etc. The net establishment charges amounted to Rs. 10.72 lakhs and were 68.76 per cent. of the total works outlay against 74.23 per cent. of the previous year.

4. A saving of Rs. 16,000 occurred under sub-head D. 13.-Grants-in-aid owing to grants not having been drawn by District Boards on account of late allotment of funds.

5. Sub-head D.-15.-A sum of Rs. 5,000 was provided for grants and subventions to schemes of rural reconstruction from Provincial revenues during the year under report as well as in the preceding two years, but it had ultimately to be surrendered as the schemes did not mature.

6. Reserve for maintenance and repairs.—Out of the reserve provision of Rs. 1,50,000 an aggregate sum of Rs. 1,46,536 was allotted for expenditure. the details of which are furnished below :---

Sub-head.	Purpose.	Amount.
		Rs.
A9.	Special repairs to the Anderson Weir, Damodar Canal project .	89,461
	Repairs to certain locks and silt clearance of certain reaches of the Midnapur Canal	23,000
D13.	Contributions to the Birbhum District Board on account of de- partmental charges, etc., in connection with the repairs to cer- tain road	736
	Contribution to the Khulna District Board on account of super- vision charges in connection with the re-excavation of the Dhatukhal	539
D16 (<i>b</i>).	Government contribution towards the construction of two bridges in the Rangpur District ,	12,800
G9.	Construction of certain distributaries and widening of the branch Canal of the Damodar Canal project	2 0,00 0 ,
	- Total .	1,46,536

7. The question of disposal of the dredgers maintained by the Irrigation Department has been pending for a long time and was considered by the Public Accounts Committee on several occasions in the past, but for want of suitable offers none of them could be sold. Of the five dredgers "Foyers" and "Alexandra" are employed in normal dredging work. As "Foyers" has almost finished its life of efficiency, it was decided by Government to

REVIEw—concld.

retain "Ronaldshay" for replacing "Foyers" and to dispose of the remaining two surplus dredgers "Cowley" and "Burdwan" by sale even as scrap. In June, 1938, Government decided to postpone the sale of these two dredgers till the formation of the Waterways Board. This decision was also endorsed by the Public Accounts Committee which deliberated on the Appropriation Accounts for 1939-40. One of the dredgers, viz., "Cowley" was, however, sold for Rs. 3,30,000 during the year 1941-42.

8. Two sums aggregating Rs. 640 being the irrecoverable rent of land (including cost of legal proceedings and interest) were written off during the year under orders of the competent authority.

ANNEXURE A.

Detailed statement of expenditure of	n important new works.

Important comments.

Expenditure on works, maintenance and repairs appears under the following sub-heads in the Grant, viz., A.-8, A.-9, B.-1, B.-2, C.-1, C.-3, C.-12, D.-1, D.-2, D.-3, D.-12, and G.-1. The figures for appropriation and expenditure for the year were as follows:—

						(Ir	thou	sands of Rupees)
Original appropriation			•		•	•	•	17,81
Modified appropriation	•	•	•	•	•	•	•	17,16
Expenditure	•	•	•	•	•	•	•	15,94

The expenditure was less than the original and the modified appropriations by 1,87 and 1,22 respectively. The savings in the original and the final appropriations were 10.5 and 7.1 per cent. respectively and were mainly due to the postponement and slow progress of works.

2. The following works estimated to cost Rs. 1 lakh or over were reported to have been completed during the year under review :---

Name of works.				Estimate.	Expenditure.	Saving.
1				2	3	4
				Rs.	Rs.	Rs.
1. Reconstruction of the Tollygunge Bridge	•	•	•	1,56,500	1,26,192	30,308(a)
2. Reconstruction of the Beliaghata Bridge	•		•	2,94,680	2,69,903	24,777

(a) The saving in the estimate was due partly to the temporary bridge not being required and the new approach road not being widened fully and partly do saving in miscellaneous items.

ANNEXURE B.

The minor head "Suspense" accommodates *interim* transactions in respect of which further operations (generally of payment or adjustment of value) are necessary before the transactions can be considered complete and finally accounted for. The operations in 1941-42 under this minor head were under three detailed heads, (i) Purchases, (ii) Stock, and (iii) Miscellaneous P. W. Advances. The transactions under each of these detailed heads are explained below :--

(i) Purchases.—When materials are received from a supplier, from another division or department for a specific work or for stock, their value is credited to "Purchases" so that, per contra, the cost may be included at once in the accounts of the work or stock. When payment is made, the head "Purchases" is debited. The head "Purchases", therefore, shows a negative (credit) balance which represents the value of stores received but not paid for.

(ii) Stock.—This head is charged with all expenditure connected with the acquisition of stock materials and with all manufacture operations. It is credited with the value of materials issued to works, or sold or otherwise disposed of and the balance of the accounts represents the book value of the materials in stock *plus* the unadjusted charges, etc., connected with manufacture.

(iii) Miscellaneous P. W. Advances.-These are of four kinds :--

- (a) Sales on credit.
- (b) Expenditure incurred on Deposit Works in excess of deposits received.
- (c) Losses, retrenchments, errors, etc.
- (d) Other items.

Broadly speaking debits are made to this head for any sums which have eventually to be recovered. The balance under this head represents recoverable amounts.

2. The transactions under each unit of suspense during 1941-42 are exhibited below :----

1	Detai	led un	its.			Opening balance.	Debits.	Credits.	Net actuals.	Closing balance.
		1				2	3	4	5	6

See sub-head D.-6.

(a) Includes Rs. 1,158 (charged) on account of the adjustment of the expenditure incurred by the High Commissioner for India during 1941-42, the intimation of which was received after the pro rate allocation was made.

(b) Includes Rs. 3,422 (charged) on account of the readjustment of expenditure incurred by the High Commissioner for India during 1940-41 and debited to this head in the accounts for that year.

Store accounts of the Irrigation Department for the year 1941-42.

The transactions under stock were normal during the year. The book balance of stock of each Irrigation Division was reported to have been verified by the Divisional officers. The registers of stock of all the divisions were audited at local inspections. The revaluation of stock was reported to have been conducted under the orders and supervision of the Divisional officers concerned and steps taken for the adjustment of the resultant profits and losses according to the Public Works Account Rules.

REVIEW.

Charged savings were '9 per cent. of the appropriation compared with 2.8 per cent. in the previous year. The bulk of the voted grant remained unutilised.

2. A credit of Rs. 3,30,000 representing the sale proceeds of the dredger "Cowley" having been adjusted during the year under the head "68.-Construction of Irrigation, etc., works" (vide sub-head H.-12 of Grant No. 10 Irrigation, page 51), the total capital outlay from the 1st April 1937 to the 31st March 1942 for irrigation works became a minus figure and consequently the interest charges on the outlay, viz., Rs. 483 were credited to the head "17.-Interest on works for which capital accounts are kept" (Grant No. 9) by debit to sub-head D.-1(a) of this grant. The minus provision of Rs. 4,000 under this sub-head did not take into account the interest on the credit of Rs. 3,30,000 referred to above.

Grant No. 12.-General Administration-General Administration-contd. 77

REVIEW.

Charged savings were 4.3 and .8 per cent. of the original and the final appropriations as against 3.8 and 2 per cent. respectively in the year 1940-41. Voted savings were 6.1 per cent. of the original grant as compared with 4.5 per cent. in the previous year. The savings in the final grant were 1.6 per cent. in the year under review, the corresponding savings in the previous year being 1.3 per cent.

2. Prior to 1941-42 the charges relating to the Price Controller and his staff were provided for under Crant No. 34—Extraordinary charges. With effect from the year under review they have been provided for under the minor head C-1—Civil Secretariats of this grant.

3. In September, 1941, orders were issued by Government that the proportionate cost of the Munshikhana and Record-room establishments employed on the education cess work should be adjusted under the sub-head A-5 of Grant No. 2—Land Revenue. No provision for the recoveries on this account (Rs. 11,644) was made under the sub-head E-1(8) of this grant although the estimates of all the local officers except three were available by the end of February, 1942. This indicates defective control.

4. A sum of Rs. 2,174 only on account of recoveries from District Boards under Section 99 of the Cess Act was provided under the sub-head E-1(8) of this grant against which the actual recoveries amounted to Rs. 8,785, causing a saving of Rs. 6,611. The controlling officer explained that this being a fluctuating head, accurate estimating was not possible and that in some cases the recoveries were adjusted after the close of the year. It has also been stated by the controlling officer that an attempt was made, as an experimental measure, to exercise better control by issuing circulars to all the District Officers to submit their estimates by the 31st January each year. The experiment, however, does not appear to have proved successful.

5. A provision of Rs. 1,07,000 was made under the sub-head E-3—Voted for the Training Institute and other charges in connection with the schemes of Rural Reconstruction. The entire provision was surrendered as the details of the schemes were not settled. The bulk of the provision made for the purpose in the preceding two years also remained unutilised for the same reason.

6. The Public Accounts Committee which considered the Appropriation Accounts for 1938-39 recommended that rules should be drawn up defining the scope and distribution of discretionary grants for rural welfare. The question has been considered by Government and it has been decided that in view of the situation arising out of the war no such grants will be made for the present. The question of framing the rules has, therefore, been deferred till the present emergency is over.

REVIEW.

In the charged section there were savings of 2.8 and .8 per cent. in the original and final appropriations as compared with a saving of 3.1 per cent. in the original and an excess of 1.4 per cent. in the final appropriation respectively in the previous year.

Voted savings were 3.1 and 1.5 per cent. in the original and final grants as against 5.4 and 2.5 per cent. respectively in 1940-41.

REVIEW.

Charged savings are 37.7 and 8 per cent. of the original and the final appropriations respectively as compared with 5.06 and 39 per cent. in the previous year. The savings in the original grant were due mainly to the I. M. S. Officers having been recalled to Military duties.

The savings in the voted grant were 1.3 per cent. as against a small excess of 1 per cent. in the previous year.

Store Accounts of the Manufactory Department of the Presidency and Centrul Jails for the year 1941.

Certified that the above figures represent a substantially true account of affairs and that they agree with the figures recorded in the Departmental Registers.

Certified also that the closing balance shown in the above account was not in excess of requirements, except in regard to spring matresses lying in 1v-1-213 the Presidency Jail. There were 117 spring matresses lying in stock in that Jail at the close of the year of the value of Rs. 585. Steps are being taken to dispose of them gradually.

Certified that the increase in the closing balances under the heads "Raw materials" and "Finished articles" is due to---

- (a) Rajshahi Central Jail.—The supply of raw materials, mainly cloth, by the Mills being done at the latter part of the year out of which, however, a certain portion was used up in making uniforms, and the disposal of the latter not being made within the year.
- (b) Dacca Central Jail.—The purchase of additional wool being effected at the end of the year required to run the Jail Blanket Factory up to 31st March 1942 and the finished goods made at the end of the year not having been disposed of during that year. The finished goods were, however, fully disposed of in the beginning of the current year.

The Stores were verified by the Superintendents of the Jails concerned and the Travelling Auditor of the office of the Inspector-General of Prisons, Bengal.

CALCUTTA,

The 27th November, 1942.

M. A. SINGH, LT.-COL., I. M. S., Inspector-General of Prisons, Bengal.

AUDIT CERTIFICATE.

The store Accounts of the Central Jails at Alipore, Dacca and Rajshahi, for 1941 were test-audited under my supervision with reference to the local records and I certify that the accounts are correct according to the best of my information and on consideration of the explanations given to me.

CALCUTTA, The 5th December, 1942. T. S. PARASURAMA IYER, For Examiner, Outside Audit Department, Bengal.

AUDIT COMMENTS.

The Committee on Public Accounts in considering the Appropriation Accounts and Finance Accounts for 1940-41 observed that the question of the compilation of profit and loss account for the Manufactory Department of certain jails was pending for a long time and desired that the requisite account should be included in the Appropriation accounts for 1941-42, if possible. At the request of Government, the profit and loss account of the Rajshahi and Dacca Central Jails has been prepared by the Accountant General's staff and sent to Government so as to serve as models for the preparation by the Jail Department of the consolidated profit and loss accounts of the Presidency and Central Jails for the year ending December 1942 with a view to their inclusion in the Appropriation Accounts for 1942-43.

REVIEW.

Charged savings were 3.3 and 3.1 per cent. of the original and final appropriations as compared with 2.9 and 2.7 per cent. respectively in the preceding year.

Voted savings in the final grant were '24 per cent. only as against a very small saving in the previous year.

2. A cash box was stolen from a safe embedded in the Police Office on the night of the 8th April, 1941. It contained, besides certain Security Pass Books and other documents, Rs. 25 collected on account of War Fund subcription and Rs. 1,034 representing permanent advance and undisbursed pay, travelling allowance, etc., of the force. The latter amount was subsequently redrawn and adjusted as a loss under orders of Government. No clue to the theft could be discovered on Police investigation, nor could anybody be held responsible for the loss. Proposals for the write-off of the sums of Rs. 1,034 and Rs. 25 have been submitted to Government, on which orders are awaited.

REVIEW.

Savings in charged appropriation were 7.7 per cent. as against 5.1 per cent. in the preceding year. There was an excess of 5.4 per cent. in the voted section against a saving of 14.3 per cent. in the previous year which was mainly due to sub-head A.

(N.B.—The figures show the value of stores at the issue rate which includes an addition of 4 per cent. over the actual cost price to cover freight charges, etc.)

Certificate and Review on Stores by the Head of the Office.

Certified that the figures represent substantially a true account of affairs and that they agree with the figures appearing in the departmental registers. All the stores of the Government Dockyard, Narayanganj, were verified in March 1942, by Mr. J. L. Godfrey, then in charge of the Dockyard.

NARAYANGANJ ;

The 20th July, 1942.

R. W. GARREAU, Engineer Superintendent, Government Dockyard, Narayanganj.

AUDIT CERTIFICATE.

The stores accounts of the Government Dockyard, Narayanganj, for 1941-42 were test-audited with reference to local records under my supervision and I certify that the accounts are correct according to the best of my information and on consideration of the explanations given to me.

CALCUTTA ;

The 11th September, 1942.

T. S. PARASURAMA IYER,

Assistant Accounts Officer, Bengal.

AUDIT COMMENTS.

In considering the Appropriation Accounts and Finance Accounts for the year 1938-39, the Public Accounts Committee suggested that the outside work undertaken by the Government Dockyard, Narayanganj, should be charged for on a commercial basis. No orders of Government have yet been received in the matter.

In the course of the last audit of the Dockyard accounts it was observed that about 60 per cent. of the work done is in respect of paying departments and private bodies and these are charged as under :---

- (i) Cost of materials and cost of labour and docking and welding charges at prescribed rates, and
- (ii) Overhead at 10 per cent. on the cost of materials and 100 per centon the cost of labour.

These rates for overhead are, however, not based on any commercial costing and were found inadequate to cover the overhead charges actually incurred. The Dockyard has consequently been working at a loss, the amount of the loss as per *pro formâ* accounts being Rs. 28,609 in 1939-40, Rs. 13,908 in 1940-41 and Rs. 15,673 in 1941-42.

In allocating overhead charges on each job a more suitable method would appear to be to have a single rate of overhead based on the total direct labour charges incurred on all the jobs and to revise this rate from year to year with reference to the actuals of the previous year.

REVIEW.

Charged savings were 2.6 and 1.1 per cent. of the original and the final appropriations respectively as compared with 1.1 per cent. in the preceding year. Voted savings were 7.6 and .8 per cent. of the original and the finally modified appropriations as against 1.5 and .8 per cent. respectively in 1940-41. The bulk of the savings in the original voted grant was contributed by sub-heads A and I.

2. A substantial sum of money was provided for rural reconstruction schemes under sub-head O-8 in the year under review, the bulk of which had to be surrendered as full effect of the schemes could not be given. Similar surrenders had to be made in the previous two years also as the schemes did not then take a final shape.

3. As in the preceding three years, large savings occurred in the original grants under sub-heads J. 1 (2)—Voted and J. 1 (5)—Voted mainly due to a lesser number of Training Centres for teachers of Primary Schools having been run owing to administrative difficulties. At the instance of the Public

Review—concld.

Accounts Committee which considered the Appropriation Accounts for 1938-39, the question has been considered by Government and it has been stated by them that in view of the uncertainty of the introduction of free primary education in the districts due to financial considerations and other reasons it was not possible to start training centres there. The dearth of qualified candidates also stands in the way of Government's going ahead with the scheme.

4. Scheduled Castes Education Fund.—The fund was created by the Government of Bengal in 1938-39 with an initial contribution of Rs. 5 lakhs for the advancement of education of the members of the Scheduled Castes in Bengal. The receipts of the Fund represent the amount of contribution paid by Government and debited to sub-head O.9(1). The expenditure incurred for the purpose is booked under sub-head O.9(2) and at the end of the year an equivalent amount is debited to the Fund by reduction of expenditure under sub-head P. Up to the end of the year 1940-41 a sum of Rs. 2,81,608 was spent for the purpose leaving a balance of Rs. 2,18,392 in the Fund. The transactions of the Fund during 1941-42 are shown below :—

n T			Rs.
Opening balance on the 1st April 1941			2,18,392

(i) Store Accounts of the Bengal Engineering College for 1941-42.

(a) The closing balance of the last year was Rs. 1,131. The increase was due to the inclusion of Rs. 197 on account of price of certain articles of general stores which were not shown in the etock account, although they were included in the Store Register.

Agency employed for verification.--Mr. C. V. Newman and Mr. P. B. Ghosh (both gazetted officers) took the annual stock of the Mechanical Engineering Department and Mr. A. M. Ahmed, a gazetted officer, took the annual stock of the Electrical Engineering Department.

Certificate and remarks by the Head of the Department.

Certified that the figures represent a substantially true account of affairs and they agree with the figures recorded in the departmental registers and that the closing balance of the stock was not in excess of requirements.

SIBPORE,	ר	A. H. PANDYA,
The 18th June 1942.	}	Principal, Bengal Engineering College.

AUDIT COMMENTS.

As the accounts of the College for 1941-42 were not test-audited this year, the accuracy of the store accounts cannot be certified by audit.

† Differ from last year's closing balances by reason of corrections since made—vide also paragraph 1 of the Audit comments below.

* Includes Rs. 584 representing the value of tools lost by students and artisans while working in the workshop, which will be recovered from them and deposited in the treasfiry in due course.

Agency employed for verification .- Principal, Absanulla School of Engineering, Dacca.

Certificate and remarks by the Head of the Department.

Certified that the figures represent a substantially true account of affairs and they agree with the figures recorded in this department registers and that the closing balance of stock was not in excess of requirements.

DACCA,

HAKIM ALI,

The 26th August, 1942.

Lecturer-in-charge,

Ahsanulla School of Engineering, Dacca.

AUDIT CERTIFICATE.

The Store Accounts of the Ahsanullah School of Engineering, Dacca, for 1941-42 were test-audited under my supervision, with reference to the local records, and subject to the audit comments, I certify that the accounts are correct according to the best of my information and on consideration of the explanations given to me.

CALCUTTA; The 7th August 1942. K. BATABYAL,

Examiner, Outside Audit, Bengal.

AUDIT COMMENTS.

The Store Accounts for the year 1940-41 were included in the Appropriation Accounts for the year unaudited. These were checked in the course of audit of the Store Accounts for 1941-42 and certain mistakes were noticed in the calculation of current issue rates, which necessitated some alterations in the figures of the closing balances of the Store Accounts for 1940-41 and the opening balances of the Accounts for 1941-42.

Value accounts were maintained in respect of receipts of stores, but individual items of "Issues" of stores were accounted for in the Store Ledger in quantities only. The closing balance of stock at the end of the year was valued at the rates then current and the value of total "Issues" of stores for the year was arrived at by deducting the value of the closing balance from the totals of the opening balance and purchases. For the purpose, of correct accounting, value accounts of individual items of "Issues" of stores should have been kept and the closing balance arrived at by deducting the total value of "Issues" from the totals of the opening balance and purchases.

130 Grant No. 20. Charges on account of Anglo-Indian and European Education—concld.

REVIEW.

Voted savings were 1.5 per cent. of the original grant and .5 per cent. of the final appropriation compared with 3.2 and .7 per cent. respectively in the preceding year.

2. Against the statutory minimum grant of Rs. 11,30,121 for Anglo-Indian and European Education calculated under Section 83(1) of the Government of India Act, 1935, the total budget provision and the expenditure for the year under report were as shown below :---

	Total Budget Provision.	Total Expendi- tur e .
	Rs.	Rs.
1. Expenditure debited to the Major head "37.—Edu- cation" (Grant No. 20).	11,46,000	11,28,899
2. Expenditure debited to the Major head "50.—Civil Works" (Sub-head A-9(a) of Grant No. 29).	5,000	5,330
Total	11,51,000	11,34,229

REVIEW.

Charged savings were 40.2 per cent. of the authenticated appropriation against 21.3 per cent. in the preceding year. The bulk of the savings was contributed by sub-heads A.-1, B.-1, D.-1 and G, and was mainly due to the reversion of I. M. S. officers to the Military Department owing to the war. The savings in the modified appropriation were 1.6 per cent. against .9 per * cent. in 1940-41.

Voted savings were 3.8 per cent. of the grant and 1.6 per cent. of the modified appropriation against '8 per cent. in the previous year.

2. The statutory grant of Rs. 60,000 to the Albert Victor Leper Hospital which was recorded as voted expenditure in 1940-41 under sub-bead B.-6 (i) in the absence of an Act of the Provincial Legislature dcclaring it to be charged, became charged expenditure with effect from the year 1941-42 for the reasons explained in the review under Appropriation No. 7 at page 245.

3. A special audit of the accounts of a State hospital, undertaken at the instance of Government in the latter part of 1940-41, revealed a defalcation of Government money to the extent of Rs. 1,064, committed by the Rent Collector of the institution, mainly by the issue of unauthorised temporary receipts and by short credit of amounts collected by the sisters and made over to the former. A further sum of Rs. 915 on account of confinement and surgical fees was found either not to have been realised from the cabin and turret patients or, if realised from them by the issue of unauthorised temporary receipts, not to have been credited to Government. It has since been reported that a sum of Rs. 80 out of the latter amount has been realised. A copy of the special audit report was forwarded to Government in May, 1941 and their orders are still awaited.

4. A sum of Rs. 1,000 being the book value of an X-Ray tube lost by theft was written off by competent authority.

Consolidated Store Accounts of the Principal State Hospitals in Bingal for the year 1941-42.

Closing balance	1,37,313	1,19,301	3 5,05 2	940	12,378	

The large increase in the closing stocks is primarily due to the abnormal rise in the prices of all articles and stocks kept reserved for emergencies.

The figures in the accounts of the Carmichael Hospital are inclusive of stores purchased from (1) the School of Tropical Medicine, (2) the Endowment Fund and (3) the Indian Research Fund Association besides those purchased from the Hospital Fund.

Certified that the figures represent a substantially true account of affairs and that they agree with the figures recorded in the departmental registers. The closing balance of stock was not in excess of requirements and the stock was verified by the departmental officers.

CALCUTTA ;

W. C. PATON, MAJOR-GENERAL, I.M.S.,

The 5th November, 1942. Sup 1v-1-213

Surgeon-General with the Government of Bengal.

ĸ

AUDIT CERTIFICATE.

The store accounts of the Medical College Hospitals and the Presidency General Hospital for the year 1941-42 and of the Mitford Hospital, Dacca, for the years 1940-41 and 1941-42, were test-audited under my supervision, with reference to the local records.

Subject to the audit comments I certify that the accounts are correct according to the best of my information and on consideration of the explanations given to me.

CALCUTTA ; The 17th November, 1942. B. R. RANGASWAMJ,

Examiner, Outside Audit, Bengal.

AUDIT COMMENTS.

The value of 'Issues' shown in the Store accounts of the Mitford Hospital, Dacca, for both the years 1940-41 and 1941-42, was arrived at by deducting the value of the closing balance of stock from that of the opening balance *plus* the value of purchases made during the years. For the purpose of correct accounting value accounts of individual items of issues of stores should have been kept and the closing balance arrived at by deducting the total value of issues from the total of opening balance and purchases.

The closing stock of 'Instruments and appliances' of the Medical College Hospitals includes obsolete instruments valued at about Rs. 1,800 which are stated to be preserved for teaching students:

REVIEW.

Charged savings were 17.7 per cent. of the original appropriation against 21.7 per cent. in the preceding year and were chiefly contributed by sub-head G.

Voted savings were 24.2 per cent. of the original grant against 17.8 per cent. in the previous year. The bulk of these savings occurred under sub-heads B.-1, B.-2, B.-5 and C.-1. Savings in the modified appropriation were 9.1 per cent. against 5.7 per cent. in 1940-41, which were mainly contributed by sub-heads B.-1 and C.-1.

2. As in the preceding two years, the provision of Rs. 10,000 made under sub-head B.-4 to make grants and subventions to schemes of rural reconstruction out of the provincial revenues remained unutilised, owing to a comprehensive scheme not having fully worked out.

3. The Public Accounts Committee discussing the Appropriation Accounts for the year 1940-41 referred to the large savings in the Public Health budget (17.8 per cent. of the original voted grant and 21.7 per cent. of the original charged appropriation) and observed that in spite of repeated admonitions to the effect that provisions for public health purposes should be utilised to the fullest possible extent, such large savings should continue to materialise. During the year under report the savings were still large, viz., 24.2 per cent. of the original voted grant and 17.7 per cent. of the original charged appropriation.

4. Deposit Account of grants made by the Indian Research Fund Association.—This deposit account^a has been opened with effect from the year 1939-40 to record the transactions connected with the grants made by the Indian Research Fund Association for the anti-malaria scheme at Jessore. The scheme is financed, half and half, by the Government of Bengal and the Association.

REVIEW-Contd.

The grants made by the Association are credited to this deposit account. The actual expenditure incurred each month on the scheme is adjusted, half and half, under sub-heads C.-1—Voted and C.-2 of this grant. At the end of the year an amount equivalent to the total expenditure booked under sub-head C.-2 is credited to the head "XXVIII.—Public Health" by a corresponding debit to this deposit account.

The transactions for the year 1941-42 are given below :---

5. Grants from the Central Government for economic development and improvement of rural areas—Grants received from the Central Government for the economic development and improvement of rural areas as well as the amounts contributed for the same purpose by the public up to the year 1937-38 were credited to a deposit head and the expenditure therefrom was also debited to the same deposit head. With effect from the accounts for 1938-39 the procedure was changed. Monies received whether as grants from the Central Government or as contributions from the public are now credited to the deposit head, but the expenditure incurred from these grants is included in the demand for grant under the relevant service head of account and an amount equivalent to the expenditure incurred is debited at the end of the year to the deposit head by corresponding credit to the appropriate revenue head. The detailed account of each scheme pertaining to this grant is exhibited below :—

4,490	Total .

The expenditure incurred on all the schemes during the year 1941-42 was regular and conformed to the conditions of the grants with the exception of Rs. 2,797 and Rs. 3,391 spent on items 15 and 16 respectively for which certificates of proper utilisation are awaited.

In respect of expenditure incurred in the previous years certificates of proper utilisation for the aggregate sums of Rs. 1,49,432 and Rs. 8,295 spent on items 11 and 16 respectively are still awaited. In respect of the former amount reports of completion of projects have been received from the grantees (local bodies) for a total sum of Rs. 37,632, which is, however, awaiting clearance pending the receipt of the certificate of proper utilisation to be furnished by the Local Audit Department after checking the accounts of the projects locally.

ANNEXURE.*

Details of the transactions for the year 1941-42 under "39.—Public Health—Works—Suspense" are given below :---

		Opening balance.	Debits.	Credits.	Net actuals.	Closing balance.	
1		2	3	4	5	6	
		Rs.	Rs.	Rs.	Rs	Rs.	
Purchases	•	9,860	13,03,998	13,00,381	3,617	6,243	
Miscellaneous Advances	•	267	4,449	267	4,182	4,449	
Total		9,593	13,08,447	13,00,648	7,799	1,794	

The credit balance of Rs. 6,243 in column 6 against "Purchases" represents the value of materials purchased but not paid for during the year.

The debit balance of Rs. 4,449 in column 6 against "Miscellaneous Advances" consists of the following :---

- (a) Rs. 282 represents the value of surplus materials awaiting adjustment in 1942-43.
- (b) Rs. 4,167 represents the excess expenditure over local contribution for two works awaiting adjustment in 1942-43.

Tol. 1.—In the absence of full data at the time, provision for the expenditure on the scheme for the regulation and licensing of jute under the Jute Regulation Act, 1940, was originally made in Jump under this sub-head. Supplementary grant was due to the expenditure on the scheme having proved larger than originally anticipated. The entire provision was transferred to sub-heads L.-1 to L.-4 under which the charges were adjusted. These sub-heads also include charges for (1) Divisional Seed Stores, (2) preparation of complete record of lands where jute was grown in 1940 (2nd operation), (3) enquiry on the Jute and Hessian Futures Markets, (4) purchase and sale of jute and (5) storage of jute records.

156 Grant No. 28.—Charges on account of Agriculture—contd.

REVIEW.

1. Charged savings were 1.8 per cent. of the authenticated appropriation as in the previous year. Savings in the final charged appropriation were triffing. Voted savings were 9.1 per cent. of the sanctioned grant as against 5.2 per cent. in 1940-41. Savings in the final voted appropriation were .7 per cent. as compared with 1.1 per cent. in the preceding year.

2. Sub-heads C, D and F include charges for the Rice Research Scheme, the cost of which was shared equally by the Provincial Government and the Imperial Council of Agricultural Research up to the year 1939-40. It was decided in the year 1940-41 that with effect from that year a portion of the expenditure on the above scheme under sub-head F only would be recovered from the Imperial Council of Agricultural Research, the balance being met by the Provincial Government. As the above decision was known to the controlling authority as early as in May 1940, no provision for recoveries should have been made under sub-heads "C" and "D" and only a portion of the recoveries should have been provided for under sub-head "F". No

REVIEw—contd.

action was also taken to regularise the unutilised provision during the year. This indicates defective budgeting and control.

3. The final saving under sub-head I, which was due to the appointment of the Assistant Superintendent as Superintendent of a Zoological Garden, was known to the controlling authority long before the due date of surrender of savings, but was not surrendered. It was explained that the surrender was not made through oversight in the controlling office.

4. Provision for the pay of the Chief Controller of Jute Regulation was made under sub-head L—5—Charged, although it was known to the controlling authority at the budget stage that the charges on this account would be adjusted under sub-head C(1)—1 of Grant No. 12—General Administration. This indicates defective budgeting.

5. Deposit Account of the Grant made by the Imperial Council of Agricultural Research.—The grants received from the Council towards the cost of research schemes undertaken at their instance are credited to this deposit account. Part of the expenditure incurred on the schemes is booked under sub-head F of this Grant and part under sub-head D of each of the Grants Nos. 21 and 24. At the end of the year an amount equivalent to the share of expenditure to be met from the grants made by the Council is debited to this deposit account by corresponding credit to the revenue heads, viz., XXIX— Agriculture, XXVII—Medical and XXX—Veterinary.

An account of the transactions during the year 1941-42 is given below :---

6. Deposit Ac ount of the Grant made by the Indian Central Jute Committee.— This deposit account is intended for recording transactions relating to the grant made by the Committee for the conduct of experimental work on the census of jute crop in Bengal. The procedure for accounting of these grants is similar to that adopted for the grants received from the Imperial Council of Agricultural Research, vide paragraph 5 above. The expenditure on the

REVIEW—contd.

scheme during the year is booked under sub-head F of this Grant. An amount equivalent to the expenditure was credited during the year to the head XXIX—Agriculture.

7. Deposit Account of Grants from Sugar Excise Fund.—This deposit account is intended for recording transactions relating to the grants received from the Central Government out of this fund for the organisation of Co-operative Societies among the sugarcane growers in Bengal. The accounting procedure is similar to that adopted for the grants made by the Imperial Council of Agricultural Research. The expenditure on this account is booked partly under sub-head F of this grant and partly under sub-head C of Grant No. 25. An amount equivalent to the expenditure was credited during the year partly to the head XXIX—Agriculture and partly to XXX1— Co-operation.

An account of the transactions during the year 1941-42 is given below :---

8. With a view to maintain an economic price level for the jute crop of 1940 a considerable quantity of jute was purchased in 1940-41 out of revenue and kept in stock. The entire stock was sold in 1941-42. This was mentioned in paragraph 5 of the Review under this grant in the Appropriation Accounts for 1940-41, but the exact gain or loss on the transaction could not be worked out as all the relevant charges were not then booked

REVIEW—concld.

If as in commercial undertakings interest on capital and other overhead charges are added to the expenditure side of the foregoing account, the transaction would show a loss. For the purchase of jute Government advanced Rs. 10 lakhs on the 18th June 1940 and Rs. 20 lakhs on the 4th July 1940 and the whole amount of Rs. 30 lakhs remained out of Government account till the 31st March 1942. Calculating interest on this sum even at the rate at which the, Provincial Government had to pay Interest to the Reserve Bank of India for their "Ways and Means" advances during 1940-41 and 1941-42, viz., 2 per cent. per annum, the loss to Government on the scheme, excluding overhead charges, e.g., the pay, establishment and contingent charges of the Special Officer, would come to about Rs. 16,000 as detailed below :—

Interest on capital Less gain shown above	•	:				:	Rs. 1,05,178 89,639
-					Loss Say	:	15,539 16,000

The Provincial Government has pointed out that the undertaking described above was not a commercial one, but was intended to carry out a policy designed to secure an adequate price level for the jute crop of 1940.

9. A scheme for the survey of areas affected by the red-rot diseases of sugarcane was launched for a period of three years with effect from the 1st November, 1941 at a total annual cost of Rs. 10,120 as a preparatory measure to bring the disease under control. The survey was initiated first in Dinajpur and Birbhum and while it was in operation there, it came to be known that the disease was spread almost all over the province. The scheme was found to be inadequate and was, therefore, abandoned. A fresh scheme has since been drawn up estimated to cost Rs. 3,16,000.

A sum of Rs. 1,132 was spent on the original scheme in 1941-42.

10. A loss amounting to Rs. 19,159 due to the death of cattle and birds in different agricultural farms was written off by competent authority during the year 1941-42.

REVIEW.

Charged savings were 2.7 and 2 per cent. of the original and the final appropriations respectively as against an excess of 4.3 per cent. in the preceding year. Voted savings were 7.1 and 4.2 per cent. of the grant and the finally modified appropriation as compared with 3.3 and 1.6 per cent. respectively in the previous year.

REVIEW—concld.

2. The original estimate under sub-head A.—Voted included a provision of Rs. 10,000 for grants to local bodies in lieu of fines realised under the Cruelty to Animals Act previously paid direct to those bodies. It was subsequently decided by Government to debit the charges to sub-head J (voted) of Grant No. 33.—Miscellaneous. But neither the appropriation for the above expenditure made under the former head was surrendered nor any provision was made under the latter head. This indicates defective control.

3. On the night of 30th August 1940 a theft was committed in a Government office in which cash amounting to Rs. 16, service postage stamps worth Rs. 183 and certain Government properties of the book value of Rs. 489 were stolen. No clue to the theft could be found out on police investigation. A departmental enquiry was also conducted, but the responsibility for the loss could not be fixed on any official.

The entire loss was written off by Government.

164 Grant No. 25.—Charges on account of Co-operative Credit—contd.

REVIEW.

In the charged section the savings were 44.9 per cent. of the original appropriation as compared with 47.6 per cent. in the preceding year. There was, however, an excess of '4 per cent. over the final charged appropriation against a saving of 1.8 per cent. in the previous year.

In the voted section the savings were 6.5 per cent. of the original grant and 2 per cent. of the final appropriation as against 5.6 and 2.1 per cent. respectively in the preceding year and were mainly contributed by sub-heads A.-2 and C.

REVIEW—contd.

2. Deposit Account of Grants from the Central Government for the Development of Handloom Industries.—These grants are received from the Gentral Government for the development of handloom industries in Bengal and are credited to this deposit account. Part of the expenditure incurred on the scheme is booked under sub-head C of this Grant and part under sub-head A of Grant No. 26. At the end of the year amounts equivalent to the expenditure on the scheme booked nuder the above two sub-heads are debited to this deposit account by corresponding credit to the revenue heads, viz., XXXI—Co-operation and XXXII—Industries.

An account of the transactions during the year 1941-42 is given below :---

3. Land Mortgage Banks.— In addition to the five land mortgage banks established in 1933-34 and 1934-35 at Mymensingh, Pabna, Jessore, Birbhum and Comilla, four new banks were started during the year under review at Burdwan, Rajshahi, Dacca and Khulna. Another new bank was also organized at Feni (Noakhali), but it could not be given a start owing to military activities going on in that sub-division.

According to the orders of Government the banks received from Government the entire cost of their management for the first year of their existence and during the following two years a subsidy equal to the excess of the cost of management over their gross profits. Due, however, to economic depression and other causes the progress of the first five banks was rather slow and Government sanctioned for them the continuance of subsidies even beyond the first three years till they became self-supporting. Further, each of these banks enjoyed the privilege of drawing advances from Government to the maximum extent of Rs. 4,868 per annum to meet the management charges which could be adjusted with or repaid to Government, as the case may be, as soon as the financial results of each bank were known. The total amount of subsidy paid by Government to these banks up to the 30th June 1942 (including the cost of their management during the first year) is shown below :—

												Rs.
(i) Pabna	•	•										22,681
(ii) Jessore	•	•	•			•	•	•	•	•	•	19,335
(fii) Birbhum		•	•	•	•	•	•	•	•	•	•	12,236
(iv) Mymensin	gh	•	•	•	•	•	•	•	•	•	•	15,758
(v) Comilla	•	•	•	•	•	•	•	٩	•	•	•	10,239
									Т	otal		80,246

REVIEW-concld.

No portion of the above subsidy is recoverable from the banks. The cost of management only in respect of each of the new banks opened during the year under review, defrayed by Government, is indicated below :---

									Rs.

The sub-joined statement compiled from the audited accounts of the banks furnished by the Registrar of Co-operative Socities, Bengal, shows their general revenue position for the year ending 30th June, 1942 and their financial relation with the Provincial Government. It will be observed therefrom that barring the four banks, newly started during the year, in which cases the entire cost of management had to be paid by Government, the only other bank which worked at a loss was the one at Jessore. This bank became entitled to a subsidy of Rs. 536 only on the year's working—being the excess of the cost of management over the gross profits earned by it. The Government subsidies payable to the banks in respect of the year ending 30th June, 1942 are shown against item 6 of the statement and the amounts recoverable from them against item 8 *ibid*. These latter amounts have not, however, been recovered as yet.

From a short review of the working of the land mortgage banks for the year ending 30th June, 1942 made by the Registrar of Co-operative Societies, Bengal, it appears that during the year there was a great demand for loans from these banks, but that their business suffered a serious set-back due to the Bengal Provincial Co-operative Bank's sudden inability to finance these banks owing to its own financial difficulties. The idea of getting adequate funds by the issue of debentures under Government guarantee (as provided for in the Bengal Co-operative Societies Act, 1940) had also to be kept in abeyance in accordance with the advice of the Reserve Bank of India.

REVIEW.

Voted savings were 16.2 and .7 per cent. of the grant and the final modified appropriation as compared with 3.4 and .5 per cent. respectively in the preceding year. Sub-heads A-5 and C mainly contributed to the saving in the original grant.

2. Provision was made successively for three years from 1939-40 to 1941-42 under sub-head A-7 for Rural Reconstruction scheme, but in all these years the provision was surrendered. The controlling authority explained that the provision made in the year under review could not be utilised as the details of the scheme were not settled.

3 Deposit Account of Grant from the Central Government for the Development of Sericultural Industry—This deposit account is intended for recording transactions relating to the grant made by the Government of India for schemes for the improvement of sericultural industry in Bengal. The expenditure incurred on the schemes is booked under sub-head A of this grant. At the end of the year an amount equivalent to the total expenditure on the schemes booked under the above sub-head is debited to this deposit account by corresponding credit to the revenue head XXXII.—Industries.

An account of the transactions during the year 1941-42 is given below :---

REVNEW.

There was a saving of 3.4 per tent. in the charged appropriation against an excess of .9 per cent. in the previous year. Voted savings were 15.6 and .4 per cent. of the sanctioned grant and the modified appropriation respectively as against 3.3 and .6 per cent. in the preceding year. Sub-head .D contributed to the bulk of the saving in the sanctioned grant.

2. As already reported in the Appropriation Accounts for 1940-41, a scheme for the introduction of a commercial system of accounts in the Cinchon a Department was formulated and submitted to Government. The scheme provides for the appointment of an Accounts Officer and a staff under him. It could not be given effect to for want of office building and quarters. The matter is, however, still under the consideration of Government.

Grant No. 27. Industries-Cinchona--contd.

Stocks of quinine sulphate crude and miscellancous items of stores were not verified. Other stocks were verified by me.

MUNGPOO, The 25th July 1942. MUNGPOO, M. SEN, Quinologist to the Government of Bengal.

Certificate and remarks of the Head of the Department.

It is certified that the figures in the store accounts represent a substantially true account of affairs and they agree with the figures recorded in the departmental registers. The closing balance of stock was not in excess of requirements.

ROYAL BOTANIC GARDEN, CALCUTTA, The 8th August 1942. S. C. SEN, Superintendent, Cinchona, Bengal.

Audit Certificate.

The store accounts of the Government Quinine Factory at Mungpoo were test-audited under my supervision and I certify that the accounts are correct according to the best of my information and in consideration of the explanations given to me.

Though it had been decided to maintain stock ledgers for miscellaneous stores other than the major items for which ledgers are at present maintained, no such ledgers have been opened as yet. This is explained to be due to the factory working without a Store Keeper for over eight months owing to unavoidable circumstances.

It appears that there is no system of physical verification of the stock of bark on bins. Government have stated that this verification will entail enormous expenditure and loss of bark in the process of reweighment.

On the clearance of 'bin stocks' quinine sulphate (crude) of the value of Rs. 11,565 was found short and was written off under the orders of the Provincial Government. The loss was explained by the Superintendent, Cinchona, as due to the errors in estimating by analysis and sampling the net quinine content of the crude quinine originally taken to stock.

The bark and quinine products have been valued at rates fixed by the Department as usual.

CALCUTTA,

The 1st August 1942.

T. S. PARASURAM IYER, Assistant Accounts Officer, Bengal.

Audit Comments.

The above store accounts of quinine products relate to the transactions at the quinine factory only, the issues made to the Sales Depot at Calcutta and to the Government Agents being accounted for as final transactions. It is desirable that future accounts should include the actual sales and the closing stock held not only in the factory but also in sales depots and with the agents so that the transactions of the department as a whole may be lrought out.

REVIEW.

Charged savings were 5.2 per cent. of original appropriation against 8.8 per cent. in the preceding year. The saving in the final appropriation was 2.1 per cent. against \cdot 7 per cent. in 1940-41.

Voted savings were 19.8 and 4.1 per cent. of the original grant and the modified appropriation respectively against 13.3 and 2.5 per cent. in the previous year. The savings in the original grant were mainly contributed by sub-heads A.-4, A.-5, A.-7, A.-9 (b), A.-10, C and F, partly set off by excesses under sub-heads B and D—Deduct—Recoveries.

REVIEW—contd.

2. The statutory grant of Rs. 4 lakhs to the New Howrah Bridge, which was recorded as voted expenditure under sub-head F in the absence of an Act of the Provincial Legislature declaring it to be charged, became charged expenditure with effect from the year 1941-42 for the reasons explained in the review under Grant No. 7.—Charges on account of Motor Vehicles Acts at page 245.

3. A provision of Rs. 1 lakh was made under sub-head A.-10—Voted in the year under review, as also in the preceding three years, for a Climatic Sanitarium for Tuberculosis (vide item 25 of Annexure A), but the work had to be postponed from year to year pending the selection of a site. The Public Accounts Committee on the Appropriation Accounts for 1940-41 recommended that the matter should be expedited.

4. The provision of Rs. 10,000 made under sub-head F.-1 to make grants and subventions to schemes of rural reconstruction out of the provincial revenues remained unutilised as in the preceding two years owing to a comprehensive scheme not having matured. The Public Accounts Committee which considered the Appropriation Accounts for 1940-41 expressed the opinion that it would be best to inform the District Officers of the existence of the provision and the nature of the schemes for which grants would be made out of it so that they might send up suitable schemes to Government in time.

5. The gross establishment charges of the Communications and Buildings Branch of the Communications and Works Department during the year 1941-42 amounted to Rs. 17·13 lakhs against the total works outlay of Rs. 96·70 lakhs, *i.e.*, 17·71 per cent. against 21·69 per cent. of the previous year. A sum of Rs. 2·01 lakhs was recovered during the year on account of establishment charges for works done on behalf of private bodies and other departments and Governments. The net establishment charges of Rs. 15·12 lakhs were 15·64 per cent. of the total works outlay against 14·62 per cent. of the previous year.

6. A School building with the Mistress's quarters was constructed in 1915-16 out of Government grant. There was a stipulation that the buildings would be made over to the School Committee after construction. But inadvertently they were borne on the register of buildings and maintained at the cost of Government up to the year 1941-42, although they had been in occupation of the school authorities since their construction. They have since been removed from the Register of buildings. As the exact terms and conditions on which the buildings were to be made over to the School Committee could not be traced, Government did not propose to fix the responsibility for the loss in respect of the maintenance charges of the buildings.

7. The bulk of the expenditure from the proceeds of the tax imposed by the Bengal Motor Vehicles Tax Act, 1932, appears under sub-head F.

Review—contd.

A duly verified *Pro formâ* account of the Bengal Motor Vehicles Tax Fund for the year 1941-42 is given below :---

									Rs.

8. Subventions from the Central Road Fund.—The proceeds of extra duty levied on motor spirit for purposes of road development, exclusive of the part attributable to motor spirit used for the purpose of civil aviation, are credited as a block grant to the Central Road Fund, 15 per cent. of the block grant being retained as a Central Reserve. Out of the balance portions are allocated for expenditure

- (a) in each Governor's province,
- (b) elsewhere in British India and
- (c) in Indian States and administered areas,

in the proportion of the consumption of motor spirit in each area to the total consumption. Under a resolution of the Central Legislature in 1937 the portions allocated for expenditure in Governor's Provinces are retained by the Central Government. From the portions allocated, allotments are made at 90 per cent. of the estimated expenditure to be incurred in each quarter. The amounts allotted may, subject to the previous approval of the Governor General in Council to each proposal made, be expended on the construct on, the reconstruction or the maintenance of roads and bridges belonging to Provincial Governments and local bodies. In addition, special grants from the Reserve are also made by the Central Government for expenditure on such schemes as may be approved by them.

The amounts allotted to the Provinces are credited in the Provincial books to the deposit head "Subventions from the Central Road Fund". The actual expenditure incurred each month on projects falling within the programme is debited to "50.—Civil Works—Provincial" under the minor heads "Communications" "Grants-in-aid" or "Establishment" as the case may be. At the same time an equivalent amount is transferred month by month to the deposit head by credit to the head "XXXIX.—Civil Works

REVIEW—ooncld.

--Provincial--Transfers from Central Road Fund ". The accounting procedure in respect of the schemes financed from the special grant from the reserve is the same as that met from the ordinary allotments except that the actual expenditure incurred by the Provincial Government is debited month by month to the Central Government by credit to the deposit head and the adjustment by debit to the deposit head and credit to the revenue head is made on receipt of intimation of acceptance of the debit.

An account of the subventions to end of the year 1941-42 is given below :---

Opening balance on the 1st April, 19	41	Rs. 76,329			
	To the end of the year 1940-41.	During the year 1941-42.	Total to end of 1941-42.

Expenditure on projects financed from subver tions from Central Road Fund—)-				
(i) Ordinary	. 1,40,52,876	31,02,575	1,71,55,451		
(ii) Special grant from the reserve .	. 11,74,926	4,465	11,79,391		
Total expenditure	. 1,52,27,802	31,07,040	1,83,34,842		
Closing balance .	. 76,329	65,342	10,987		

The details of expenditure incurred during the year under review are given below :---

(a)	Expenditure	on	Road I	Fund	Works	classi	fied as	Com	muni	catio	18.	Rs. 25,97,1 72
(b)	Grants-in-aid	ι.	•	•		•	•	•	•	•	•	4,79,797
(c)	Expenditure	on	apecial	esta	blishm	ent for	Road	Fund	wor	ks		30,07 F
				•					Tots	l	•	31,07,040

The total commitments after the close of the year in respect of incomplete original works of the province financed from the Central Road Fund amounted to about Rs.69 lakhs.

The credits and debits to the fund as indicated in the above account were for amounts authorised by the existing rules of the fund and no diversion from the fund has yet been noticed in respect of the year 1941-42.

Important comments.

Expenditure on works, maintenance and repairs appears under sub-heads A.-1 to A.-18, B and C of this Grant. The figures of appropriations and expenditure under these sub-heads for the year under review were as follows :--

						I	n lakhs of Rs.
Original appropriation	•	•			•	•	99·61
Modified appropriation				•			1,02.18
Expenditure						•	96·70

The savings of Rs. 2.91 lakhs in the original appropriation was the net effect of a decrease of Rs. 30.77 lakhs in the expenditure on certain work, partly set off by an increase of Rs. 27.86 lakhs in the expenditure on others. The more important savings and excesses are analysed below :---

Savings in the original appropriation.

In lakhs of Rs.

(a) On account of major works above Rs. 50.000 for which specific provision was made in the budget—							
(i) Postponement of a work pending selection of site (vide item 25 of this annexure)	1.00						
(ii) Postponement of works owing to the war (vide items 2, 17, 18, 19, 22 and 23 of this annexure)	2•46						
(iii) Slow progress and late commencement of works due to diffi- culties in execution, non-availablity of materials, late sanc- tion to estimates, late administrative approval, acceptance of tendors at lower rates, etc. (vide items 3, 4, 7, 12, 15, 16, 20, 21, 24 and 26 of this annoxure)	5.93						
(iv) Partial execution of a work owing to the war situation (vide item 1 of the annexure)	•43						
(v) Land acquisition for a building not completed during the year (vide item 5 of this annexure)	2.17						
(vi) Part payment of the cost of acquisition of land for a building and excess provision (vide item 6 of this annexure)	3.02						
(vii) Slow progress of a work owing to war conditions (vide item 67 of this annexure)	1.42						

Savings in the original appropriation -- concld.

In lakhs of Rs.

(b) On account of other major works for which specific provision was made in the budget (vide item 31 of this annexure)	
(i) Postponement and partial execution of works owing to the war and to financial stringency	1.46
(ii) Postponement of a work due to non-acquisition of land	· 4 0
(iii) Late commencement of works	•62
(c) On account of minor works (Buildings).—Postponement and partial execution owing to the war (vide item 49 of this annexure) .	2 6 1
(d) Savings under "Repairs" for the reasons explained under that sub-head at page 186	6·08

Excesses over the original appropriation.

2. Expenditure was less than the modified appropriation by Rs. 5.48 lakhs, *i.e.*, 5.4 per cent. The most important saving was a sum of Rs. 2,17,489 which was due to land acquisition for a building not having been completed during the year (*vide* item 5 of this annexure). The residual savings were mainly contributed by items 51, 73, 75 and 78 *ibid*. The saving on these items amounted to Rs. 1,73,597 which was set off by an excess expenditure of Rs. 50,400 under item 72 *ibid*.

3. The number of major works in progress during the year was 102 against 100 in the preceding year. The total expenditure to end of 1941-42 on these works amounted to Rs. 159.21 lakhs against the total estimate of

Rs. 231.68 lakhs. The number of major works completed during the year was 3 against 10 in 1940-41, the total expenditure on them being Rs. 6.69 lakhs against the total estimate of Rs. 6.93 lakhs. There was no substantial variation between the estimates and the expenditure on these completed works except in one case (vide item 35 of this annexure) which was due to abandonment of the work.

ANNEXURE B.

(See sub-head G.)

The nature of the transactions recorded under the minor head "Suspense" is explained in paragraph 1 of Annexure B to Grant No. 10.—Irrigation.

The transactions under each unit of Suspense during 1941-42 are exhibited below :---

		Т	otal	-	62,738	5,15,788	5,00,2 5) 52	78,215	

The transactions under stock were heavy during the year due to the purchase of various materials required for civil defence. The increase in the closing balance of stock was mainly due to the fact that materials purchased against items 3 and 7 could not be utilised fully during the year.

The book balance of stock for each Public Works Division was reported to have been verified by the Sub-divisional Officers concerned. The registers of stock of all the divisions were audited during local inspections. Revaluation of stock was also reported to have been conducted under the ordets and supervision of the Divisional Officers concerned and steps taken for the adjustment of the resultant profits and losses according to the P. W. Account rules.

The minus balance against the head "Storage" represents unadjusted profit. This has been adjusted in the accounts for the year 1942-43.

REVIEW.

There was a saving of 83.5 per cent. in the original charged appropriation. The finally modified appropriation was, however, fully utilised. Voted savings were 18.9 and 3.8 per cent. of the grant and the modified appropriation respectively. The corresponding savings in the previous year were triffing.

2. Famine Insurance Fund.—This fund has been created by the Government of Bengal under the Bengal Famine Insurance Fund Act, 1937, with effect from the year 1938-39 with an initial contribution of Rs. 10 lakhs from the Provincial Revenues. Further contributions to the Fund from the Provincial Revenues amounted to Rs. 2,03,000 in 1939-40 and Rs. 2,00,000 in 1940-41. The Fund is intended to bear the expenditure on the relief of famine and of distress caused by serious drought, flood, earthquake and other natural calamities. The corpus of the Fund consists of the contributions paid by Government and the interest accrued on the securities in which the sums at credit of the Fund are invested. The transactions of the Fund during 1941-42 are shown below :—

					Rs.
Opening balance on 1st April 1941	•	•			14,75,743
Receipts during 1941-42 :				Rs.	
Transfers from the Revenue A	ocoun	t.		Nil

Grant No. 31.—Superannuation Allowances and Pensions, etc.—concld. 223

REVIEW.

In the charged section there was an excess of 2 per cent. in the sanctioned appropriation against a saving of 9.9 per cent. in the previous year. In the voted section there were savings of 3.8 and .4 per cent. in the original grant and the final appropriation as against a saving of 1.2 per cent. and an excess of .2 per cent. respectively in the previous year.

228 Grant No. 32.-Charges on account of Stationery and Printing-contd.

REVIEW.

In the charged section there was a saving of 2.8 per cent. against a small excess in the previous year. In the voted section there were savings of 10.4 and 6.7 per cent. in the original grant and the final appropriation as against 1.5 and 1.3 per cent. respectively in 1940-41. The bulk of the savings was contributed by sub-heads A and F.F.

2. The transactions relating to "Depreciation Reserve Fund-Government Presses" appear under sub-head I in the Appropriation Accounts. The Depreciation Reserve Fund for the presses was constituted by the Government of Bengal with effect from the year 1927-28 to provide a reserve for meeting the cost of renewal and replacement of plant, machinery and furniture of the Government presses. The annual receipts of the Fund consist of (a) the amount of depreciation calculated on the value of plant, machinery and furniture in use in the presses during the year and (b) the book value of the plant, machinery and furniture disposed of during the year. The Fund is available for renewal or replacement of articles of plant, machinery and furniture (except the cost of petty repairs) to the extent of the amount at the credit of the Fund from time to time.

The position of the Depreciation Reserve Fund for the year 1941-42 is shown below :---

(a) Payment of contribution to the Fund has been suspended for two years with effect from 1941-42 under orders of Government.

The debits to the Depreciation Reserve Fund of the Bengal Government Press and the Press and Forms Department during the year under report were for amounts authorised by the existing rules of the Fund and there was no diversion therefrom.

Store Accounts of the Central Jail Press for the year 1941-42.

*Hoop iron weighing 4 cwt. 3 qr. 12 lbs. was found short in stock and the value of the deficiency, viz., Rs. 305 is being made good by deductions from the pay of the Assistant Miscellaneous Store Keeper in monthly instalments commencing from his pay for May 1942 at the rate of Rs. 15 per month.

The stock was verified by the Travelling Auditor of the office of the Inspector-General of Prisons, Bengal.

Certified that the figures represent a substantially true statement of facts and that the stock at the close of the year was not in excess of requirements.

ALIPORE,

The 18th November 1942.

H. W. SHEA, Press and Forms Manager, Bengul (Offg.).

The store accounts of the Central Jail Press, Alipore, for the year 1941-42 were test-audited under my supervision and I certify that the above accounts are correct according to the best of my information and on consideration of the explanations given to me and as shown by the books of the Press.

REVIEW.

Charged savings in the original appropriation were 11.1 per cent. against 5.8 per cent. in the previous year and were mainly contributed by sub-head "J". Savings in the final charged appropriation were 3.4 per cent., the corresponding savings in the previous year being trifling. In the voted section savings were 2.6 per cent. of the grant as compared with 8.2 per cent. in 1940-41. Savings in the finally modified appropriation were 1.6 per cent. as against an excess of 1.8 per cent. in the preceding year.

2. Certain contributions paid to local bodies in lieu of receipts under the Government of India (Adaptation of Indian Laws) Order, 1937, and debited to sub-head "J" of this grant were formerly voted expenditure, but with effect from the year under review have become charged expenditure under the provisions of the Bengal Revenues (Charged Expenditure) Act, 1940. Of these contributions, grants to local bodies in lieu of fines, etc., under the Calcutta Hackney Carriage Act were hitherto adjusted partly under sub-head A and partly under C of Grant No. 16.—Police and those under the Cattle Tresspass Act under sub-head C of that grant.

3. The original appropriation under sub-head J.—Charged included a provision of Rs. 1,00,000 for grants to District Boards in lieu of their receipts on account of lapsed landlords' fees and landlords' transfer fees, the expenditure against which amounted to Rs. 1,70,343 leading to an excess of Rs. 70,343. As the grants were payable annually in arrears and statements of accounts were required to be submitted by the district officers to the controlling authority in April each year, necessary arrangements for additional grants on this account could have been made in the course of the year. This indicates defective control of expenditure.

REVIEW.

In the charged section there was an excess of 81.4 per cent. in the authenticated appropriation as compared with a saving of 34.4 per cent. in 1940-41. Sub-heads A-1(b) (i) (6) and B mainly contributed to the excess. Excess in the final appropriation was 404 per cent. as against a saving of 6 per cent. in the previous year and was mainly contributed by sub-heads A-1(b) (i) (6) and A-2(15).

In the voted section there were savings of 10.3 per cent. of the grant as compared with 41.9 per cent. in the preceding year. The savings were chiefly contributed by sub-heads A-2(2), A-2(8), A-2(9), A-2(10), A-2(11) and A-2(12), partly set off by an increase under sub-head A-2(15). Savings in the finally modified appropriation were 3.2 per cent. as against 17.6 per cent. in 1940-41.

2. Excesses under sub-heads A-1(b) (ii)—Charged and Voted (Gross) were due to the appointment of an additional officer and entertainment of extra staff to cope with the increased work. Although the excesses were known to the controlling authority, additional funds were not arranged for in the course of the year. This has been explained to be due to an oversight.

3. The final excess under sub-head A-1(b) (iii)—(Gross) was due to increased expenditure on contingencies. This was known to the controlling authority, but necessary funds were not provided under the head. This has been explained to be due to an oversight.

REVIEW—eoncld.

4. Explanations for savings or excesses in column 4 under sub-heads A-2(2), A-2(5), A-2(6), A-2(7) and A-2(14) have not been furnished by the controlling authority. It has been stated that the position with regard to the A. R. P. expenditure was considered as a whole and hence it was not possible to furnish explanations by sub-heads. The variation between the final grant and the actual expenditure under the total voted head-(net) amounted to 4.7 per cent. and is shown below :—

										Rs.
Final grant .		•	•				•	•	•	66,00,768
Actual expenditu	re	•		•	•	•	•	•	•	62,93,215
Variation		•		•	•	•	•	•	•	

It has been explained by the controlling authority that it was not possible to fix a closer final grant owing to the abnormal nature of the charges and to the expenditure being spread over a large number of A. R. P. and Civil Defence measures administered by various departments of Government.

5. Explanations for savings or excesses in Column 4 under sub-heads A-1(b) (i) (1), A-1(b) (i) (3) and A-1(b) (i) (6) (Charged) have not been furnished by the controlling authority. It has been stated that the position under the charged heads was considered as a whole and hence it was not possible to furnish explanations by sub-heads. The net excess of Rs. 7,544 (final grant Rs. 6,000, actual expenditure Rs. 13,544) has been explained to be due to the fact that recoveries from the Central Government could not be made in full during the year.

6. A provision of Rs. 39,66,000 for certain Civil Defence schemes was made in lump in the Supplementary Estimate under sub-heads A-2(8) to A-2(11) and A-2(13) for want of details. The expenditure on the schemes was booked under sub-heads A-2(1) to A-2(6), but the provision was not transferred to those heads. It was reappropriated to meet excess under the sub-head—A-2 (15)—Voted. The expenditure on the schemes was met from the savings under the sub-heads A-2(1) to A-2(6) which were due to the expenditure on various Civil Defence schemes not coming up to expectations.

REVIEW.

The above statutory payment was non-voted up to the 31st March, 1937, in terms of Sub-section 3 (iii) of Section 72-D of the Government of India Act, 1919. Under paragraph 4 (b) of the India and Burma (Transitory Provisions) Order, 1937, the expenditure continued to be charged up to the 31st March, 1939. Thereafter it became voted in the absence of the Provincial Legislature declaring it to be charged. From the year 1941-42 it has become charged once more under the provisions of the Bengal Revenues (Charged Expenditure) Act, 1940.

Appropriation No. 9.—Interest on works for which Capital Accounts are kept---Charged.

Major Head. "17.—Interest on Works for which Capital Accounts are kept ".			
A.—IRRIGATION WORKS	8,45,000	8,47,462	+ 2,462
B.—NAVIGATION, EMBANEMENT AND DRAINAGE Works.	12,29,000	12,22,876	-6,124
Total .	20,74,000	20,70,338	-3,662

NOTE.—The expenditure under this head is a proformâ adjustment to show the interest liabilities on irrigation capital expenditure. The corresponding credit is taken under the receipt head "XX—Interest" in respect of interest on capital outlay incurred before the 1st April 1937 and under "22— Interest on Debt and other Obligations" by means of a deduct entry in respect of interest on subsequent outlay. See paragraph 2 of the review under Grant No. 11 on page 66.

The interest for the year 1941-42 was calculated at the rate of 4 per cent. per annum.

REVIEW.

Charged savings were 8.7 per cent. of the appropriation compared with 43.4 per cent. in the preceding year. Voted savings were 8.3 per cent. of the grant and 7.4 per cent. of the modified appropriation as against 21 and 10.9 per cent. respectively in 1940-41. Sub-head E contributed to the bulk of the saving in the final grant.

Balance Sheet of the Siliguri Band Saw Mill Sub-division on the 31st March, 1942.

252

B. R. RANGASWAMI, Examiner, Outside Audit, Bengal.

The 30th October, 1942.]

CALCUTTA;

Q. G. GHAUS, Manager, Band Saw Mill, Siliguri Sub-division.

The 4th August, 1942.

SILIGURI ;

The Financial Review of the Siliguri Band Saw Mill Sub-division for the Year 1941-42.

The working of the Siliguri Band Saw Mill Sub-division for the year 1941-42 resulted in a profit of Rs. 19,304-9-3 as against a profit of Rs. 11,665 in 1940-41 and a loss of Rs. 15,466 in 1939-40.

2. The working of the year may be considered particularly satisfactory in consideration of the following :---

(i) The above profit covers the loss usually incurred by the log depôt as the depôt accounts have this year been combined with the Saw Mill account.

(ii) The machineries completely broke down at the beginning of the year and the Mill stopped working. The Saidpur Railway Workshops undertook the repairs and as they were already working double shift on their own jobs, they could only do our work at leisure and with what spare labour they could muster from time to time. The repairs and overhauls thus became a very protracted affair. The Mill resumed work a little before the Puja holidays, but could not rise to full capacity during the remainder of the year as certain machines remained idle throughout the year for want of spares or repairs. Roughly speaking, during 1941-42 the Saw Mill remained altogether closed for about 4 months and worked half-capacity for 8 months.

(iii) The cost incurred on (a) running stores, (b) repairs, replacements, overhauls and (c) crew was very much heavier than in previous years. The expenditure on item (b) alone was nearly Rs. 7,000.

(iv) The Saw Mill had to pay for the entire supervising staff maintained in the forests for extraction of logs. Formerly the Range Staff did this work and the cost was not debited to the Saw Mill.

(v) It will be seen from the analysis of cost of production of sawn timber that certain timbers were converted and reconverted at a loss, viz.,

- (1) Sal was sawn at a cost of Rs. 2-10-04 pies and sold at rates varying from Rs. 1-13-2 to Rs. 2-2-4. This was done in order to meet outstanding contracts of the previous year.
- (2) The Saw Mill dropped money on logs purchased from Buxa Division. This was due to the Railway freight which was found to be nearly 60% higher than that on which the purchase price was calculated. We paid nearly Rs. 20 per ton as freight from Rajabhatkhawa to Siliguri (about 120 miles), as against a freight of Rs. 12-8 per ton from Rajabhatkhawa to Calcutta (about 350 miles). Representations to the Railway authorities were of no avail. Loss was partly due to the very poor quality of logs supplied—the loss in conversion was very high.
- (3) At the beginning of the year the Mill had on stock a large quantity of Toon (and Gamhari, etc.) squares extracted from the forests during the early part of the previous year for reconversion at the Saw Mill into 1" planks for Ishapore Rifle Factory. 'The cost sheet will show how the reconversion of such squares resulted in loss. Luckily a part of this stock of Toon squares was unexpectedly sold without reconversion.

(vi) A higher royalty for Sal was debited against the Saw Mill. The rate charged in 1941-42 was Rs. 1-0-3 per cft. against Re.0-11-1 in 1940-41.

	The	rates of	f royal	lty de	bited t	the Sa	e as follov	vs (p	er cubic	o foot of log)

4. The log depôt. is now considered as integral part of the Saw Mill Sub-division—the accounts of the log depôt and Saw Mill have, therefore, been combined. The revenue from sale of logs amounted to Rs. 19,307-1-0 out of the total revenue income of Rs. 1,71,178-9-9. Of the former amount Rs. 10,986 was on account of outstanding contracts of the previous year for Sal logs, Rs. 574 from Teak logs which were too small for the Band Saw Mill to handle and Rs. 7,747 from Match-wood and Box-planking species for which we had previous contracts. Further, these perishable species had to be sold in the round in any case as the Saw Mill was not yet working to full capacity and timber required for war purposes had to be given preference.

The revenue from contracts (for sale of logs) entered into during the year was not much more than Rs. 5,000.

5. The Saw Mill has once again justified its existence and the faith I have always had in it. The new policy, *viz.*, to sell Sal standing in the forests direct to coupe purchasers and to run the Saw Mill on miscellaneous timbers usually allowed to rot in the coupes, was continued although a small quantity of Sal was sawn so as to meet outstanding contracts of the previous year.

It has now been proved beyond doubt-if indeed proofs are necessary-that,

- (i) where there is a good log market for Sal, it does not pay to saw this species for railway sleepers.
- (ii) a saw mill can run at a profit on miscellaneous timbers even if it works only for a part of the year.

It will be seen from the Cost Sheet of sawn timber that although during the year under review the Saw Mill remained closed for 4 months and worked half-capacity for 8 months, it converted 94,056 c.ft. of logs and produced 51,177 c.ft. of sawn timber working mainly on miscellaneous timbers while the corresponding figures for 1940-41 were 83,993 c.ft. logs and 52,977 c.ft. sawn timber working mainly on Sal and producing railway sleepers in large sections.

6. In conclusion, I may add that we look forward with confidence to even better results for 1942-43.

Q. G. GHAUS,

Dated the 21st September, 1942.

SILIGURI,

3. Price of raw materials .-

Manager,

Band Saw Mill, Siliguri Sub-division.

AUDIT COMMENTS.

In connection with the Appropriation Accounts for the years 1937-38 and 1938-39 the Accountant General informed the Public Accounts Committee that the system of accounts obtaining in the Siliguri Band Saw Mill did not require any modification. This view has been accepted by Government.

The statements presented in the Appropriation Accounts this time have, however, been slightly remodelled as the log depôt which has hitherto been considered as a separate entity is now treated as an adjunct of the Mill. The extraction of Sal logs for sale in the round having practically ceased, the depôt now performs a different function in serving mainly as a storeyard for the Mill. Consequently, the statements appended have been compiled so as to bring out the consolidated results of the Mill and the depôt as a single unit. The figures for the year are not, therefore, susceptible of being compared with those of the previous year, though comparative figures have been given in the statements for information.

The prices realised for sawn timber in respect of Sal were generally lower than in the previous year, while better prices were obtained in the case of

Kukat' (varieties unknown to the market). It would appear that Sal logs sold in the round at the coupes get better prices than sawn timber.
